

WHAT COUNCIL DID

**Says Large Subsidies Available
For Overpass, Culvert Improvements**

A discussion on possibility of having CNR overpasses on Main St. N. and Mountainview Road improved took place at the September 8th council meeting, when council was interviewed by T. O. Lazarides, a Toronto consulting engineer.

He was introduced by Wm. Carr, town engineer, who explained that he has viewed with concern the two narrow overpasses, and learning that considerable financial assistance is available from the government in recent legislation, has asked Mr. Lazarides for his opinion.

The speaker, taking the Mountainview bridge as an example, said it might cost the town \$10,000 for a widening project. A large share of the cost would be borne by the federal and provincial governments and the railway, he said, with all decisions subject to approval by the Board of Transport Commissioners.

Mayor Armstrong brought up the subject of the John St. culvert which he thinks is of even more importance than the overpasses. In 1948, he said, an extensive survey had been made by the town, and the transport board handed down a decision that the \$80,000 cost should be equally divided between railway and town. Asking what the Lazarides firm would charge to prepare a brief on the culvert, he was told that it would cost about \$800 to prepare "proof of need" statistics for all three projects.

A pre-engineering study for each would cost \$1,000, but only one of these at a time would be recommended.

Such a study would determine, for instance, whether the subway should be widened or abandoned in favour of an overpass or track crossing at another location.

**Knox Hall Reception
Follows Acton Wedding**

With Rev. Kenneth Reid officiating, Acton, Pentecostal Church was decorated with tall standards of white and pink gladioli on August 30th for the marriage of Catharine Ann (Kay) Norton, daughter of Mr. and Mrs. Harvey Norton, Limehouse and James Solomon Bailey, son of Mr. and Mrs. Bill Bailey, Brampton. The bride is a member of the Alliance Paper Mills office staff and the groom is associated with his father in the fuel oil business in Georgetown and Brampton.

Mrs. Gordon Bowen, Acton, was soloist and sang The Lord's Prayer before the ceremony and because during the signing of the register. Miss Violet Vincent, of Brampton was accompanist.

Given in marriage by her father, the bride wore a full-length gown of silk organza over taffeta and net, fashioned with a short train. Lace and seed pearls enhanced the neckline. Her head-dress was of pearls and sequins with a fingertip tulle illusion veil. She carried a white bible with gardenias and stephanotis.

Carol Ann Thomas, Brampton, was maid of honour. Bridesmaids were the bride's cousins, Elaine Morrow, Toronto and Carole Lane, Georgetown. The groom's niece, Norma Jean Bailey, Brampton was flower girl.

Attendants were gowned in lilac and orchid silk organza over taffeta net, bridesmaids in lilac and the others in orchid. They carried cascades of gladioli to match their gowns and the flower girl carried a basket of gladioli and stephanotis. Three attendants wore picture hats in matching colours and the flower girl wore a little crown matching her gown.

The best man was Manley Gowerman, Brampton, and ushers were brothers of bride and groom, Kenneth Bailey and Ross Norton.

GATHERED AT THE DISPLAY of this year's entries in the Better Newspapers Competition at the Canadian Weekly Newspapers Association's convention in Toronto last week, are, left to right, Bert Smith, CWNA convention chairman, the Port Credit (Ont.) Weekly; Fred W. Beattie, the Annapolis Royal (N.S.) Spectator; H. E. McCormick (new) president CWNA, the Montreal Monitor; G. Cecil Day, immediate past president CWNA, the Liverpool (N.S.) Advance; Helen Marsh; the Dauphin (Man.) Herald & Press; Lucien Fontaine, president, Association of French Weeklies and publisher of the L'Abitibi, Val d'Or (Que.)

**Abitibi Newsprint Mill
Ultra-Modern in Design**

Abitibi Power and Paper Co., Ltd., has spent \$15,600,000 during the past two and one half years in expanding facilities for newsprint production at its Fort William, Ontario, mill.

This expansion program provides additional grinding, steam generation, and newsprint production capacity. Planning of the expansion program was started in 1955 to assure present and potential customers of a dependable supply of newsprint for their future anticipated requirements.

Following approval by the Board of Directors in April, 1956, a new newsprint machine was ordered for delivery in 1958.

Designed to produce 300 tons of newsprint daily, running at 2,000 feet per minute, the 276" Benoit paper machine is balanced for a maximum speed of 3,000 f.p.m. This compares with 115 tons daily newsprint production for each of the two existing machines operating at 1,930 f.p.m.

All of the latest developments have been incorporated in the design of the new machine, including noise-abating equipment. An electric sectional motor drive will electronically control the speeds of each section of the paper machine to the close tolerances necessary for high-speed newsprint production.

A semi-automatic roll wrapping and handling system is installed in the new finishing room. This system will reduce to a minimum the manual labour in handling the rolls from the paper machines to boxcars, and has sufficient capacity to handle the production of the new machine plus the two old machines.

These ultra modern facilities augment Abitibi's ability to supply quality newsprint as customers anticipate their needs.

**CLEARING
AUCTION SALE**

— of —
Livestock, Implements, Tractor, Hay, Grain, Household Goods, Etc. in Erin Township

The undersigned has received instructions from:

GORDON JACKSON

to sell by auction at the farm, Lot 10, Concession 7, Erin Township, situated on 7th Line, 1 mile south of 24 Highway, 3 miles south of Erin village on

WEDNESDAY, SEPT. 24th
commencing at 12 o'clock sharp

The following:

COWS — Roan cow, 6 yrs. old, due about time of sale; Hereford cow, 4 yrs. old, milking well, bred March 6th; red cow, 5 yrs. old, milking well, bred April 17; black cow, 6 yrs. old, milking well, bred June 20th; Ayrshire cow, 7 yrs. old, milking well, bred June 16th; grey cow, 6 yrs. old, milking well, bred June 19th; red cow, 5 yrs. old, milking well, bred June 8th; Hereford cow, 4 yrs. old, milking well, bred June 7th. Above cows are all raised by owner, milked with-milker, bred to pure bred Shorthorn bull.

PIGS & POULTRY — York sow with 10 pigs ready to wean at time of sale; 2 York sows, with 9 pigs ready to wean; York sow, bred July 15; York sow, bred July 18; York sow, bred July 20; York sow, bred Aug. 14; Landrace and York boar, 1 year old; two young sows, bred Aug. 12 and 13; 18 pigs, 11 weeks old; 10 pigs, 12 weeks old; 10 pigs, 9 weeks old; 10 pigs, 7 weeks old; 25 Rock and Hamp yearling hens; 10 mixed pullets, heavy breed; Jamesway brooder stove, 300 chick size.

Extension of town water facilities to a planned subdivision on the former Gordon Brown farm on the 7th Line was approved for Thomas Beer, who had requested this some weeks ago.

Mr. Beer will pay total cost of the installation.

Only objector was Cr. Alfred Sykes, who said he would like more assurance that the town has ample water supplies before committing itself to selling it out of town. Recent tests haven't shown supplies to be in too healthy a state, he pointed out.

Water chairman Ern Hyde said Georgetown is going to have to find a new source for industrial water and has plenty to sell for household use. It wouldn't be too many years, he said, before the town might be faced with putting in such an installation on its own, and it is good business to have it done at cost and collect double rates from consumers.

Cr. McGillvray pointed out that a report by a consulting engineer Mr. Roberts, had shown plenty of water available.

Stan O'Connor, 18 Ewing St. said he is considering building a house on Cherry St., an unopened road allowance which runs off Ewing and asked if consideration would be given for putting in a road and for sewer and water lines.

Council turned this over to the various committee chairmen concerned to investigate costs. There are several other building lots on the street.

**RETIREMENT PRESENT
AT SMITH & STONE**

Retiring on pension, Walter Gummer, 16 King St. E. was honoured by fellow employees at Smith and Stone recently.

Gordon Spence presented him with a Lazy Boy chair on behalf of the staff. He has been an employee of the pottery department for the past fourteen years.
