

**MAN CANNOT ESCAPE FROM HIMSELF**

— author's name below —

Everyone has the opportunity to live a longer life. We are all given just one body and escape from it is impossible as long as we live. Therefore we must take care of it.

If your body is ever attacked by any sickness, give it the best assistance you possibly can. This means visiting your physician promptly for skilled help and following his advice exactly. If he prescribes any diet or medication, follow his instructions as faithfully as we will when compounding his prescription.

**YOUR PHYSICIAN CAN PHONE TRIANGLE 7-3692 WHEN YOU NEED A MEDICINE**

Pick up your prescription if shopping near us, or let us deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

**Medical Co-op Will Also Receive Coverage Benefit**

Residents of rural Ontario who have registered for Ontario Hospital Insurance through their local Medical Co-operatives are entitled to, and will receive, the two months' free coverage the same as any other residents of the province who have registered prior to the closing date of November 29th, according to a statement made by Paul E. Meehan, regional manager, rural enrolment, of the Ontario Hospital Services Commission.

"The fact that some of the Medical Co-Operatives have billed their members for several months premiums in advance, has caused some misunderstanding on the part of a number of rural residents," stated Mr. Meehan, "but regardless of the period for which the members are billed initially, the two months' free coverage is being added, thus establishing the required prepaid period."

"The provisions of Ontario Hospital Insurance, he went on, are the same for all residents and the fact that a person is registered through a Medical Co-operative does not in any way change his eligibility for the two bonus months' insurance, which the Commission made available for early registration."  
More than 5,300,000 residents of the province are registered, representing over 90 per cent of the population, and it is anticipated that before the plan begins to operate this percentage may even be higher.

To the accompaniment of frantic parents lacing skates, adjusting pads and generally trying to get their lads "ship-shape," for the new hockey season, Georgetown's Kid Hockey swung into action at the John Street Ice Palace last Saturday morning, at the unearthly hour of 7.00 a.m.

Harrassed coaches, managers, timekeepers and referees shepherded their charges onto the ice for the first time, and started the long haul over the season of moulding their green teams into smoothly-functioning units.

Frank Connely, one of the originals, and this year's secretary, registered latecomers and signed each to a team, with the help of Ray Robson, president Bud Hill, and others. This itself is a real chore, with several hundreds of youngsters to be placed on teams and given coaches and managers.

There was an excellent turnout of parents and interested adults on Saturday morning, and it is hoped

it continues. There is still room for many more to offer their help and they are urged to come forward to donate their services on the occasional Saturday morning. It is stressed that they do not have to be experts on the game, but can help in so many other ways.

The schedule for next Saturday morning follows this item, and the list of players is published elsewhere in this issue.

It takes people like Jack MacLennan...  
  
...to give you good telephone service

Your Bell Telephone installation man — whatever his name may be — is a lot like Jack MacLennan. On the job, his skillful work reflects his careful training. But more than that, we like to think that a friendly smile and unfeeling courtesy lend a pleasant touch to his brief visit. We try to encourage this friendly spirit all through the business. You'll see it when you visit the Business Office. You'll hear it in the operator's "voice with a smile". This helpful, friendly spirit is one of the many ways in which we try to give you good telephone service.
