## when we noted the sparse audience at Milton, if Haltonites haven't come to the conclusion that Halton debating teams cannot be defeated. If our readers realized how much effort, research and practice is involved in the preparation of a debate, we cannot help but think they would make a special effort to be out and give the young people some encouragement. Furthermore, we are confident that they would find the arguments presented in these inter-county debates much more enlightening and broadening than certain television programmes. Let's hope this gentle hint will result in an improved attendance when the 3rd round debates are held in early February.
