**LAURA TREBLE SETS
TRIPLE BOWLING MARK**

A new high triple mark in the
afternoon ladies bowling league
was carded by Laura Treble this
week who registered a respectable
800 tri-count. Mrs. Art Stamp
with a 749 and Mrs. E. L. Miller's
737 were other good counts.

A 307 by Miss Treble was just
second best in the singles where
Mrs. Miller ruled with a 326.
Mrs. Frank Anderson rolled a
noteworthy 291.

Still leading the league Mrs.
Tom Ledwidge's Flying Saucers
ran into a stone wall in Mrs. Orval
Paul's Skylarks and lost all
seven points. The gain pulled
the Skylarks into contention for
the trophies behind Mrs. W. Mar-
chment's Kool Katz in third. The
second place spot is held down
by the Red Feathers captained
by Mrs. Bud Bishop.

The holders of the highest
averages are Mrs. Frank Ander-

**Fuel Board, Gas Company
Provide Panel Discussion**

Despite zero temperatures which
restricted attendance somewhat, a
very interesting meeting was held
Thursday in Wrigglesworth school
by East Georgetown Ratepayers
association, under the chairman-
ship of George Macaulay, the vice
president.

Major topic of the evening was
the safety of Georgetown's natu-
ral gas installations, inside and out-
side the home. In order to get
first-hand facts, members of the
Ontario Fuel Board which regul-
ates and policies the gas compan-
ies and installers, and members
of the United Suburban Gas Co.
had been invited to a panel dis-
cussion with attending members
of the association.

On the panel from the fuel board
were Commissioner John Wingfel-
der, senior inside inspector Alex
Allan, senior outside inspector Wil-
bert Callum and assistant inspec-
tor Fred Clarke. The gas comp-
any panel was represented by Har-
mon Boyes, general sales manager;
Heard Hyslop, general superinten-
dent outside lines; John Bennett,
Jim Robertson, merchandise man-
ager and formerly district man-
ager at Georgetown; Al Blackwell,
district manager and Robert An-
derson, district salesman.

Mr. Boyes explained that the
gas company is most anxious to
ensure that no gas explosions oc-
cur in or out of the home. The
companies, he said, are victims of
newspaper headlines regarding ex-
plosions where the word gas is used
referring to gasoline, coal gas,
and sewer gas. Another example
he quoted was a double headline
in a daily paper, about a family
blasted out of their home at night
and having to crawl through the
rubble. In actual fact there had
been no major explosion, no rub-
ble, the gas company had been
called because of a pipe damaged
by a shifting foundation, and the
owner had slept the rest of the
night in his home.

Mr. Wingfelder outlined the
views of the fuel board and stated
that safety is of the utmost impor-
tance to the board and that there
is no question of the safety of gas
appliances. Since the Palermo and
Ottawa explosions, both of which
were due to unusual circumstan-
ces, steps have been taken by the
board, he said to prevent any recur-
rences. The inspection staff of
both inside and outside depart-
ments of the board have been ex-
panded and a new Ontario code
will be issued shortly to regulate
installations. This will replace the
modified American code presently
used. The complete installation
in Georgetown was checked by the
board and found to be excellent.

One of the many questions ask-
ed the panelists was about heat
reclaimers attached to the furnace
pipe leading to the chimney. Mr.
Allan stated that the board does
not recommend these on either gas
or oil, and instead recommends
that the furnace be adjusted for
maximum efficiency, as this is
cheaper and better for the installa-
tion.
