FOR SALE: 9 acres growing Rocky treeland, fourth line, 7 miles north 401 Hwy. three miles South No. 7, 3 mile East No 25 by gravel. All mileages guaranteed truthful (to small unintentional errors) and, being on public property, can be checked up without trouble (if thought necessary with me). In addition this land abuts a farmer's 200 acres to the west, which farmer's 200 acres is assumed to be (from lengthy description) the 200 acres advertised in 1957 Toronto paper except that 200 acres in ad is quoted as "2 miles south of Acton, off 25 Highway"; whereas abutting 200 acres (i.e. lone) is, in truth, 3 miles from '37 Acton signpost by gravelroad and 25 Hwy., including 1 1/2 miles 'off' No. 25 2nd line by gravel. None the less (despite this discrepancy in geography) the 200 acres in ad is assumed to be abutting farm. Thus (by same ad) is held "90 acres of hardwood, mainly maple, worth about \$20,000". Because of this hitherto unknown but fortunate information and the resemblance in climate and grounds of our treelands, my hopes are that the trees on 9 acres should be worth (if and when of similar status in future) "about" 2,000 (1957) \$ converted into future \$. Even if these hopes don't materialize and the trees become worth only a fraction... so what?... the land itself and the rocks will always be there with a certain value. But no guarantee or promise of the future value of trees in any kind of dollars applies to 9 acres. In years to come 9 acres might actually get on a highway (i.e. "off" highway) and become more valuable but since it now is, in truth, 3 miles from nearest (No. 25) rightful now price is \$80 acre for building, 150' frontage on good road, hydro, 206' backage onto \$55,000* 200 acres. Previous 25 acres sold for cash day after ad in Georgetown paper. Write only: W. R. C. Wright, Gen. Del., Georgetown.
