OUR EXCITING TRIP

by Gloria Turnbull

Seven a.m. was here, and the Grade 7 class had arrived at Park school for an enjoyable trip to Midland. As we boarded the bus, everyone suddenly seemed awake with excitement. By way of Highway 400, we progressed on our ninety mile trip.

About 9.30, we arrived at the reconstructed Huron Indian village. Once inside, Dr. Jury from Western University gave us a brief talk on the history and lives of the Hurons, and explained how they made their "long-houses." We were then permitted to roam about the village, grinding corn and trying our hand at Indian-style bowling. The clicking of cameras began here, and lasted throughout the whole of the delightful day.

From here, we went to visit the Martyrs' Shrine, which was even more beautiful than I had expected. There, we followed Father Phelan up a steep hill to a small platform overlooking part of Georgian Bay. The Hurons had used this same spot as a lookout for approaching enemies. We were told all about Brebeuf and other brave Frenchmen who had given their lives for Christianity.

By bus we then crossed the road to Fort Ste. Marie and saw the tomb of Brebeuf. We also saw the remains of the fireplace and buildings the missionaries had used.

After seeing Fort Ste. Marie, we went to Little Lake Park, where we had our lunch and bought some refreshments and souvenirs. Our next stop was at the historic town of Penetanguishene. Here at Fort Penetanguishene Museum, we saw the skeletons of two boats: the Tigress and the Tecumseh. This fort had been a naval base at the time of Lieut. Governor John Graves Simcoe, and later became a military base after the war of 1812. We were surprised to see the many things that were there. We noticed a path where all the soldiers, every day would march around the flagpole.

About a mile and a half from the fort, we stopped at the St. James Garrison Church-on-the-Lines. Services are held regularly in this

historic church, which was built in 1836. Soldiers used to march to the church regardless of rain or snow.

Upon returning to Midland, we had some free time to explore the town, and to buy something to eat. Afterwards we went to Springwater provincial park near Midhurst to see the wildlife, wandering through the woods, we discovered trout, beaver, wolves, bears, and all kinds of Canadian wild animals. Most of us were greatly impressed by the beautiful eight foot span of the peacock's tail as it proudly spread its plumage.

As we started back to Georgetown, we felt as though we had had a thrilling day. I'm sure all the class would agree that we had a wonderful time, and that we would like to go back again.
