EDITORIAL COMMENT ...

Need For Traffic Light

Approval is being sought from the Depart- lights. ment of Highways for installation of a traffic light at the busy Highway - John Street corner.

A similar request a few years ago was turned down by the department on the grounds that a traffic count did not show enough need for such installation. The count must hav been taken on a Sunday morning between 2 a.m. and 4 a.m. and even at that-hour we wager there is a fair flow of traffic on both these busy streets. We believe at that time, too, there was some comment on not a high enough accident rate to justify the we won't be happy until we see the light.

At any rate, traffic has increased to the point where at any hour of the day a pedestrian takes his life in his hands to dart across the highway. And drivers have cooperated, also, to boost the accident toll for there have been several smash-ups (luckily all minor) at the corner in the past few years.

The need is certainly apparent to anyone who'lives in town. Statistics are all right in their place, but whatever a new traffic count shows,

Renaming Streets

There is some possibility that when mail delivery comes, it may be necessary to rename a few local streets with similar names.

Victoria St. and Victoria Ave. have been mentioned, as well as the two Chapel Streets, east and west.

demand the change, we can think of no better name for the present Victoria avenue and crescinally part of the Dayfoot property which was subdivided several years ago. The family roots go back to Georgetown's early history and, with closing of the old shoe factory and death of brothers Harry and Charles, it would be nice to have

them remembered in this way.

The Dayfoot brothers contributed their share to community betterment during their stay in town. Harry Dayfoot was a member of the hydro commission for years. His brother served on the high school board. Their shoe business Should it happen that the postal authorities in its day was one of the town's stable industries and their product was widely known.

Another old Georgetown name which has ent than Dayfoot Drive. The crescent was orig- escaped recognition is Barber, and we would suggest this as eminently fitting also, should other street renaming be necessary: As founders of a business which still makes Georgetown known as "the paper town" the Barber name should have a niche in history too.

CRANK CALLS HAZARDOUS TO AMBULANCE, POLICE AND FIRE PERSONNEL

> Georgetown, Ontario June 28th, 1959

Dear Mr. Editor: Georgetown and county provin cial police officers have gone on record that the person or persons who have put in false alarm calls for ambulance and police will be severely dealt with if apprehended

Last Tuesday, June 23rd, a call was received for ambulance service to Noryal, which turned out to be a false alarm. On the Saturday night following

a call was received by Georgetown police that several persons were i possession of revolvers in the Nor val hotel. Georgetown cruiser and three provincial cruisers responded Mrs. Horace Barnes and Nora and this again, was a fictitious

In the case of the volunteer ambulance drivers and assistants, every trip, whether genuine or not entails great risk for them as they are not covered by insurance such as is in effect for firemen while in the performance of their duties.

Coupled with this is the fact that any ambulance, police or fire call represents an emergency and no time is lost getting to where the service is required.

It would be well for those who subscribe to such tricks to think (if that is possible for them) that they may be responsible for a fatal accident involving an officer or officers in the various services if they persist in this highly dangerous practice, and if caught would be likely subject to a heavy pen-

DRINKING AND THE LAW

If the liquor laws of Ontario achieved anything they might be poor ones go down the drain. The being the only pastime? wodthwhile. If the many rules and regulations governing the consumption of alcoholic beverages were successful in reducing the number of drunks and alcoholics, or the number of impaired driv ers; if these laws helped us to prevent the abuse of alcohol, we could congratulate ourselves on our wise legislators.

Unfortunately, this is not the gloomy depressing sort of place at case. When Prince Philip asked best; resembling something bet Harry Allen (MPP) what was going ween a station waiting room and to be done about changing these barn. The decorative schemes obsolete and old-fashioned liquor found in some of the more modern laws, he posed a good question. tayerns are better suited to a pub-The present regulations are of no lic lavatory than a place of enterbenefit whatever to the average tainment. regulations and directives which inconvenience and penalize the average law-abiding respectable citizen. and a multitude of hotels and taverns whose only interest is pushing the stuff down the customer's neck as fast as possible.

Not that there is too much that an enlightened tavern owner can do to improve his facilities. The regulations tell him when he can sell, how he can sell and what he can sell; they also tell him a mil lion other things such as, the customer must be sitting down, must finish a drink before ordering another, must only talk, drink, smoke and go to the toilet. All this balderdash is fine and dandy for the drunks who only go there to drink anyway. The sad part is that in. in this atmosphere people are encouraged to drink more than they would in more social surroundings. The average tavern is a pretty

TODAY'S INSURANCE

PROBLEMS ANSWERED

Question: Suppose a driver hits his brakes so hard he wears flat spots on all his tires trying to avoid a collision. Shouldn't the insurance company pay for the tire, damage? After all, the driver has probably saved the company a big collision repair

Answer: The answer is probabiy 'no'! Tires are worn a bit every time a stop is made, and if insurance companies paid for that damage there would be a million arguments as to degree of damage and whether or not the damage was necessary in avoiding a collision.

Contributed in the interest of sound insurance by JOHN R. BARBER JAMES F. EVANS JOHN T. ARMSTRONG
