

1959 Deer Season For S. Ontario

TORONTO — Open season for deer in southern Ontario has been announced by Lands and Forests Minister the Hon. J. W. Spooner. The Minister also announced an open season for moose, for residents only, on St. Joseph's Island, from Nov. 23 to 28.

Deer seasons for residents and non-residents.
St. Joseph's Island—Nov. 9 to 14th. Schedule 14, Nov. 9 to 12; Schedule 15, Nov. 9 to 14.

SCHEDULE 14

1. That part of the County of Carleton lying east of the Rideau River.

2. The counties of Grenville, Prescott and Russell.

3. That part of the County of Leeds lying east of that part of the King's Highway known as Number 32 from the Town of Gananoque to its intersection with that part of the King's Highway known as Number 15, east of that part of the King's Highway known as Number 15 from its intersection with that part of the King's Highway known as Number 22 to its intersection with that part of the King's Highway known as Number 42 at the community known as Crosby to the Village of Westport and lying south of the waters of the Upper Rideau Lake.

4. That part of the County of Carleton lying west of the Rideau River.

Those parts of the County of Frontenac

(1) lying south of that part of the King's Highway known as Number 7 and west of that part of the King's Highway known as Number 28 and

(2) lying east of that part of the King's Highway known as Number 38 and south of the County Road known as Number 8 and the connecting road from that county road to the community known as Gentry.

Those parts of the counties of Hastings and Lennox and Addington lying between that part of the King's Highway known as Number 7 and that part of the King's Highway known as Number 2.

That part of the County of Leeds lying west of that part of the King's Highway known as Number 32 from the Town of Gananoque to its intersection with that part of the King's Highway known as Number 15, west of that part of the King's Highway known as Number 15 from its intersection with that part of the King's Highway known as Number 22 to its intersection with that part of the King's Highway known as Number 42 at the community known as Crosby, west of that part of the King's Highway known as Number 42 from its intersection with that part of the King's Highway known as Number 15, west of that part of the King's Highway known as Number 2.

5. That part of the Township of Matchedash in the County of Simcoe, comprising Lots 1 to 22, both inclusive, in Concession II; lots 19 to 27, both inclusive, in Concession III; lots 15 to 27, both inclusive, in Concession IV; lots 17 to 27, both inclusive, in Concession V; lots 15 to 26, both inclusive, in Concession VI; lots 9 to 15, both inclusive, in Concession VII; lots 2 to 18, both inclusive, in Concession VIII; lots 1 to 10, both inclusive, in Concession IX; lots 1 to 11, both inclusive, in Concession X; lots 1 to 10, both inclusive, in Concession XI; lots 1 to 8, both inclusive, in Concession XII; and lots 1 to 4, both inclusive, in Concession XIII.

SCHEDULE 15

The counties of Bruce and Highway known as Number 15 at the community known as Crosby to the Village of Westport and south of the Mass Road from the Village of Westport to the west boundary of the County of Leeds.

That part of the County of Peterborough lying south of that part of the King's Highway known as Number 7.

RESTRICTIONS

Shotguns only will be permitted during the deer season in the counties of Dundas, Stormont, and Glengarry and in Grenville and Carleton east of the Rideau River, as well as in the counties of Russell and Prescott, and in that part of the county of Leeds designated in Paragraph 3 of Schedule 14.

Hunters will not be permitted to use dogs in the counties of Dundas, Stormont and Glengarry, St. Joseph's Island and the counties of Bruce and Grey.

ASHGROVE

History is Topic at Women's Institute

The September WI meeting was held at the home of Mrs. Charlie Austin with thirty ladies present. President Mrs. Frances Thompson opened in the usual way and secretary Mrs. Frank Wilson called the roll which was answered by "the biggest improvement I have enjoyed since I started housekeeping."

Mrs. George Nurse gave the motto "What is our generation leaving behind for the future?" Mrs. Frank Ruddell who is a member of the Canadian Consumers' association gave a review of the bulletin she'd received. This meeting was Historical Research and Mrs. John M. Bird was in charge of the program and she opened with a few recreational games Mrs. Clayton Wilson gave a reading "Gracious living in Grandma's day."

Mrs. C. McArthur of Milton delighted the ladies as she spoke on making of glass and she also displayed beautiful antique glass. A piano solo by Mrs. Bob Alexander and current event by Mrs. Jas. Carney. Several members had brought antique articles which were on display. Meeting closed with a social hour.

We congratulate Mr. and Mrs. Frank Wilson who were married in Ballinacree United Church on Saturday. We welcome the bride, Elizabeth Gibson and hope she will have a pleasant future life among us.

Congratulations and the best of good wishes go to Mr. and Mrs. Frank Ruddell who will celebrate their thirtieth wedding anniversary on October 5th. Thirty years of wedded bliss. Just as it was 1929. God grant that both of you will have many more years to shine.

And may your lives be merry. As every year turns over. To both of you God bless you. On the fifth day of October. Last Friday evening Mr. and Mrs. Ernie Tindale were invited to a social evening at Arthur in honor of their daughter, Sandra and her husband Russ Morrison when the community gathered and presented them with a lovely bedroom suite.

Back To School For Water Works, Sewage Operators

TORONTO — Plans are being made to resume short courses for water works and sewage works operators. It has been announced by Dr. A. E. Berry, general manager and chief engineer of the Ontario Water Resources Commission.

These courses were first initiated by the Ontario Department of Health and it was hoped they would be continued and would include advanced training which eventually would lead to a Certificate of Qualification. However, it was found necessary to defer the courses because of inadequate facilities for carrying them on. Further, the activities of the health department in respect to public water supplies and sewage disposal were

transferred to the Ontario Water Resources Commission. A new laboratory, with provision for training facilities including a lecture room, is being built for the OWRC and is expected to be ready late this fall. This new building, on Highway 401 in northwest Metro Toronto, will be the scene of the resumption of the water works and sewage works operators' courses.

CERTIFICATES

Dr. Berry said it is the intention of the Commission to resume these courses of training and to carry them forward to the point where certificates can be issued to those taking part.

"The courses will be resumed just as soon as the new facilities are available," he said. "It is hoped that all those who were able to take life courses previously will continue, and that other operators will wish to participate in this training program."

Big League Ball Park In Toronto Township?

COOKSVILLE — Toronto township residents may soon find the major leagues in their back yard.

That is, if Deputy Reeve Robert Speck's new idea is greeted with approval by Jack Kent Cooke, leaf owner and owner and holder of a major league franchise.

The idea is part of a planned recreation centre near Milton on which an excellent site could be provided for a baseball stadium. Mr. Speck feels that such a site would be ideal, being served by five major roads and highways, and no further away from downtown Toronto than the New Woodbine.

The area, now on the township planning department's drawing boards, will also include its 1200 acres. Facilities for swimming, golf, tennis and car racing.

Private developers have expressed interest, the Metro Planning Board favors the stadium scheme, and Mr. Cooke is "looking forward to meeting with Mr. Speck."

But even if the stadium is built elsewhere, the recreation area will not go by the boards, officials say.

Local Groups Air Problems On CBC Farm Forum Program

In just a few short weeks, on Nov. 2, farmers across Canada will have an opportunity to meet together at Farm Forum. Over 500 of the community discussion groups will meet in schools and halls across Canada to listen to a special one and one-half hour broadcast over 51 CBC stations, dealing with their problems.

ADJUSTMENTS

This year the emphasis will be placed on the major adjustments which farmers are being required to make in order to remain in business.

The first broadcast, which will originate at the Royal York Hotel in Toronto, will deal with the small farmer and his special problems. It will draw from the farmers and their leaders, assembled for the annual meeting of the Ontario Federation of Agriculture, their views on the small farmer and his plight and proposals aimed at improving his lot.

Although a good deal has been said about the subject before, this series of Farm Forum Broadcasts and Guides ought to assist many thousands in their decision-making. Consider the following sample topics:

The Small Farm... A Special Case. Should new policies and programs be developed to deal with small farmers and their problems?

Adjustment in Price Supports. Are price supports hindering or helping the agricultural industry to adjust to changing times? Are they subsidizing inefficiency? Are they subsidizing the large-scale producer? What should price support do?

NEW FACTS

These subjects are the vital farm issues of the day, in many respects. Decisions involving the answers to many of them must be made by every farmer if he is to remain in business. Farmers from Newfoundland to British Columbia may use Farm Forum to equip themselves with new facts and to help them arrive at the right answer.

For further information on National Farm Radio Forum, or for copies of the Farm Forum Guides as they leave the presses, write National Farm Radio Forum, 113 St. George St., Toronto.

Hunters

Enjoy the hunting this season, BUT...

Again a few well-meant words of caution. No handler of firearms is so expert that he can always be sure of safety without keeping a constant check.

A loaded gun or rifle should always be kept on 'safe' until the actual moment of pulling the trigger.

It's up to the individual to ensure that he enjoys to the full his hunting and shooting, rather than the season ending abruptly for him in tragedy. It takes no time at all to learn the "10 Commandments of Gun Safety" and it could save a life — perhaps your own!

Can Check Tree Growth

Amateur tree "doctors" can rate their own growth diagnosis clinics right in the back yard. Almost anyone can do this, check annual growth. The only diagnostic "instrument" needed is a tape measure or ruler.

Examination of any tree trunk discloses that the end of each year of twig growth is marked by a ring or a series of markings. If you look at a twig in the spring before growth starts, the first series of rings mark the beginning of last year's growth while the second series of rings mark the previous year's growth. Often this growth record can be traced back many years.

If the twig growth is vigorous the tree will be in good health and well-dressed with attractive foliage. If the twig growth is declining the tree will show a corresponding decline in vigor and in attractiveness according to J. D. Riddle, field representative of the Davey Tree Expert Co.

In checking tree growth, a professional tree man examines the many parts of the tree to get the over-all average. A single twig might not give a true picture.

Twig growth indicates that the tree's health is falling, in more than one instance, the tree's surroundings should be checked. The difficulty results from such factors as poor drainage, insect infestation, disease, lack of nourishment or drought.

Once the nature of the trouble is determined, corrective measures can be taken.
