## Skids On Ice Car Hits Truck

The heavy steel spring which holds the hood of a car open may have saved the life of Garry Scott of Limehouse.

Scott was making a right turn off Mountainview Rd. at the River Dr. intersection when he lost control of his car on a glare of ice. The vehicle skidded into a parked truck which was facing west on the north side of the street and the impact tipped loose a protective angle iron shaft on the side of the truck thrusting it through the front of the car.

The shaft pierced the fender and hood and but for the heavy spring in its path would have carried on through the dash and possibly the driver. Fortunately, both Scott and a passenger escaped uninjured.

The truck suffered about \$500 damage and the car \$100 according to Cst. Ron Rankine who made the investigation. The accident occurred at about 11.15 p.m.
