Musical Program, Movies Entertain Manor Residents

Miss Marjorie Thompson described these emotions as being the same as those that should be felt by all Christians at Christmas time, the emotions of peace, joy, love and good will.

On Monday evening, Dec. 20th, some thirty young boys and girls who are members of Grace Church Junior Choir presented an excellent musical program for the residents of the Manor. They sang this sacred program under the leadership of their gifted rector, Rev. D. A. Powell, with Mrs. J. Ledwith, the organist at Grace Church, giving very fine assistance at the piano. Clad in their black cassocks and white surplices, the members of the choir entered the dining room while singing the processional hymn, "O Come All Ye Faithful." From this point on, the service was divided into five lessons describing the Nativity, each lesson consisting of a reading from the Bible, a carol and an anthem. The passages from the Bible were read with very fine and reverent expression by Lorna Glasson, Gwen Wilson, Donna Lewington, Jean Wilson and Margaret Anne Clement. The

carols and anthems were sung in very reverent and inspiring fashion by the entire choir and this lovely singing reflects great credit upon Mr. Powell and Mrs. Ledwith. At the close of the concert, Mr. Powell thanked Mrs. Ledwith and three other ladies who had helped in various ways. Mrs. McTosh, Mrs. Freeman and Mrs. Googins and Mr. Christensen's son, Mr. Hugh Denton, thanked everyone on behalf of the rector. Some of the young girls and boys then assisted in the serving of cookies and drinks.

Three moving picture films, all in colour, were shown for the residents by Mr. Allen on Saturday evening, Jan. 2nd. The first film, A Thousand Million Years, was a geological survey of Canada and explained the formation and location of coal, oil, minerals, and other natural resources. The commentary for this film had been recorded by Lester Sinclair. The second film, Hunting in Newfoundland, showed how caribou, partridge and moose are hunted in the central portion of this Maritime Province and whales in the surrounding ocean. The Colour of Life was the title of the third film. It was a botanical study of Canadian trees, especially the various kinds of Canadian Maples. The spirited singing of sev-

A travelling salesman walked into a restaurant one morning and told the waitress "Bring me two eggs fried so hard they are edged in black, two slices of burnt toast and a cup of cold coffee. Then sit down and nag me — I'm homesick."

"Yes, Doctor... Wednesday will be fine!"

When it's time to have the dentist check daughter's teeth, Mrs. Smith naturally reaches for the telephone, that helpful "member-of-the-family" with the habit of getting things done. When you look back over your day, it's sometimes surprising to realize in just how many little ways the telephone has helped you... how it adds so much convenience and comfort to everyday living.
