

# Nassagaweya Councillor Protests Marketing Bill

Waving a pamphlet in his hand, Deputy Reeve A. R. Sar- your freedom of decision, your freedom of speech and your right of self-defense, your County Council's attention very right to choose your own leadership on "Bill 86", a bill presently before the Ontario legislature.

"Bill 86" is a bill to set up a Government marketing board for farm produce. However, according to Deputy Reeve Sar- vice, a member of the Ontario Producers' Association, "It would place far too sweeping authority in a Government Board."

The hard-hitting, three-pointed like this "Bill 86" will allow a government appointed Board or Government appointed trustees. AND NOT a producer-elected body to take over the assets of your cooperative, to allocate your funds in the way and to the extent they may deem advisable, without consulting you or your Board about it. To cancel the appointment of your selling agency any time they so desire. To prevent you or your Board from even recommending the appointment or re-appointment of your selling agency. To prevent your producer-elected Board if it was allowed to stay in office) from any decision or action on your behalf without the OK of the Farm Products Marketing Board. To have the way for the eventual seizure and administration of your marketing program by government appointed officials.

The document ends up with some very sweeping statements, quoting from it, the last paragraph says, "All this leads to a legalized confiscation of the dinner."
