

A radio communications system, used successfully on the Royal Train during the Queen's visit to Canada last year, has been introduced by Canadian National Railways on all freight and passenger trains operating in the mountain area of British Columbia and Alberta. The system, installed from Vancouver and Prince George to Edmonton, will improve train operating efficiency. By means of two-way radio, engineers and train crews can now communicate with the ease of making a phone call. Messages also can be exchanged between trains in the same territory, between trains and yard offices, and between train crews and dispatchers. The upper photo shows the CNR Super Continental in the Fraser Valley just east of Chilliwack, with Mount Cheam in the background. At lower left is Engineer C. E. Volland in the locomotive cab receiving a message from Trainman B. K. McKee, lower right.

bridgemen. Christ, who will come again. The early Church spent this Holy night in prayer and reading of Holy Scripture and then at dawn, as the light of the sun appeared, they would break bread, and in Holy Communion greet the True Sun, the Light of the World, Jesus Christ. Holy Week is to be viewed properly as the great event of our Redemption. The various aspects all point to the Resurrection. In this, Christ conquered death and sin. He passed over, in the true Passover, from death to life. And we who bear Christ's name are also able to pass over from death to life, by continually dying to sin and living into righteousness, by turning away from self-centred lives to God-centred lives. Relive, through the liturgy of the Church, the events of your redemption, attend services provided in this Holy Week and God will richly bless your life. The Rev. John D. Safety Supervisor Attends Conference
Smith and Stone safety supervisor, Bob McMenemy, was one of 4,500 delegates at the Industrial Accident Prevention Association's annual safety conference Monday and Tuesday, April 4th and 5th at the Royal York hotel. The delegates are all connected with the accident prevention program of their companies and attended to learn of advancements. To them a low accident rate means less pain and suffering for their fellow workmen as well as reduced cost and they were purposefully serious in their attendance at the sessions. Delegates came from all Canadian provinces and many parts of the United States.

A Serious Look at Holy Week
April 4th 1968
This coming Sunday begins Church Year as Holy Week. It is an entire week designated as Holy because in it we are able to follow closely the life and Passion of our Lord.
This Sunday, April 10th is Palm Sunday. We commemorate on this day our Lord's triumphant entry into Jerusalem. Palm branches were cut down and thrown in the pathways. People shouted from the road side, "Hosanna to the Son of David, Blessed is He who comes in the name of the Lord." Jesus was proclaimed King and true Messiah. It was a glorious day and we relive the moment in our churches as we too hold palm branches and sing the triumphant hymn.
"All glory, love and honour, To Thee, Redeemer, King!
To whom the lips of children made sweet hosannas ring."
The events of Holy Week move swiftly along. On Maundy Thursday Jesus gives us the means of maintaining communion with Him. At the Last Supper, He instituted the Sacrament of the Holy Eucharist. "This is my Body. This is my Blood." He said of the bread and wine. Christians, week after week, year after year, century after century, have, in obedience to His command to "do this in remembrance of me," broken the bread and drunk the wine. This is the true, eternal sacrifice offered in an act of perfect obedience. His shedding of blood did what mere animal sacrifices could not do. He was the true Lamb of God which takes away the sin of the world. We offer ourselves, our souls and our bodies at every Offertory in the Holy Eucharist. We join ourselves to His eternal offering of Himself upon the Cross.
On Holy Saturday, the last day of Lent, we wait in Vigil in our parish churches for the

CASH, CHEQUES TAKEN WHEN TIRE STORE LOOTED

An undisclosed amount of money and cheques were taken in a break-in last week at the Canadian Tire store, according to a police report.
Police said the theft occurred some time late Thursday night or early Friday morning. Entry was gained, according to the report, through a door on the east side of the building which was forced by a pinch bar. Once inside the culprits had access to the entire building.
The money and cheques were removed from a locked file in the office.
Constable Ted Scott and R. D. Whitson, who made the investigation, dusted the entire area and office for fingerprints but found no leads. The break-in was reported by the manager, Lloyd Marks, when he went into work at 8:30 on Friday morning.
