AVIAN AFTER CRASH

THE PLANE LIES crumpled in a corner of the Waterloo-Wellington Airport after a plunge from an estimated height of 90 feet. Orders for the Avian 2-180 had approached the 400 mark and both Canadian and U.S. governments have shown interest in the project.

Much Broader Facilities For Mentally Retarded

By Blair Justice
In Fort Worth Star-Telegram

Donnie is a mongoloid. He has a normal nine-year-old sister named Carol and a normal six-year-old brother named Roland. Their parents want society to become aware and, if possible, to accept these children, these victims of mental retardation. Just what is mental retardation? It means a brain that has been damaged or impeded in its growth, or for any reason is deficient. Retardation can result before birth — from any of approximately 100 causes including certain diseases.

Cause is Not Known
Donnie is called a mongoloid because his slant eyes and facial features resemble those of the Mongolians of Asia. No one knows specifically why children are born with such a condition.

But the fact is that, like other mentally retarded children, they are born. They are a part of society and there is a decision to be made as to what to do with them.

If you find the subject or pictures "depressing" then the decision will have to be made by others willing to face these children.

Donnie has a broad flat face and coarse features. He also has a thick tongue, stubby fingers and short arms and legs (all characteristics of mongoloids). Mongoloids are not representative of all mentally retarded children. Other boys and girls with mental impairment have no physical manifestations of it at all. Some even are extremely

attractive and beautiful children.

There are many interpretations of what trainable means, but it is generally accepted as meaning children who can not learn (many can never learn to read, write or work any arithmetic). Their IQs are believed to be between about 25 and 50.

What most can learn is training in self care, getting along with people and a limited amount of usefulness to others. "Educable" mentally retarded can learn up to fifth or sixth grade subject matter by the time they are 16 or 17 years old. Their IQs are accepted as being between about 50 and 70.

Half Chronological Age

Donnie is one example of the mentally retarded children believed to be in the trainable category.

Donnie's mental age, his mother says, has been tested as being between 3 and 4. That means his behaviour and his thoughts are roughly analogous to those of a normal child about 3 1/2 years old. Donnie's chronological age is 7 1/2.

Since he can do just about half of what an average 7 1/2-year-old child can do (in test situations), Donnie's IQ is estimated somewhat between about 0 and 50 (100 is taken as average).

Unlike the "educable" child, Donnie and the trainable are never expected to be able to support themselves or be self-sustaining members of society. The best the authorities can tell these children will reach a mental age of between 3 and 7 at maturity.

Dogs at Large

Please take notice that Georgetown By-Law 56-10 prohibits allowing dogs to run at large at any time of the year.

ROY HALEY,
POLICE CHIEF

Educable most Numerous
Now, the trainable do not constitute the biggest per cent of the mentally retarded. The educable are most numerous, according to authorities. (There is yet a third, smaller category called "the custodial.")

If there is one point the best informed authorities seem to agree upon it is this: No two cases of mental retardation are alike. The mentally retarded, like people more fortunate, are individuals with individual differences.

We're Growing . . . New Phone Book is Bigger

Subscribers in Georgetown, Huttonville, Snelgrove and Victoria will be receiving that perennial "best seller" — their new telephone directory — during this week. Lloyd Denby, local manager for this area has announced. Distribution will exceed that of last year by 500 copies.

The new directory will be noticeably different from that of 1959 in that a three column book will replace the existing two column one. The familiar beige cover remains and features a scene of the Milton county buildings in Milton. Next year, however the cover of the

directory will be in colour. The introductory pages will contain the usual information helpful to telephone customers including emergency numbers for police, fire and ambulance service, directions for dialing locally and a section explaining Direct Distance Dialing (DDD) with a list of places a subscriber can dial.

Mr. Denby suggests that all subscribers discard their old telephone books as soon as the new ones arrive and pointed out that wrong numbers and unnecessary calls to "Information" result from keeping the outdated directories.

Mrs. Wellington Wilson Chosen Head of W.I.

Mrs. Wellington Wilson was elected president of Georgetown Women's Institute when members held their election at a meeting in Knox Church hall on April 6th.

Other officers are: Mrs. Clare Wilson, honorary president; Mrs. Sid Robin, 1st vice-president; Mrs. Bert Palmer, 2nd vice-president; Mrs. Frank Petch, secretary-treasurer; Luena Campbell, assistant; Mrs. V. Dawson, district director; Mrs. H. C. Bailey, press; Mrs. Erin Thompson and Mrs. W. G. Bell, Helping Hand; Mrs. Norman Snyder, arch and shut-in; Mrs. Bert Palmer and Mrs. E. H. Robinson, auditors; Mrs. V. Dawson was in the chair for the election.

A good attendance answered roll call and the year's business was reviewed in reports by officers and conveners. Mrs. P. Petch gave the treasurer's report, Mrs. Frank Robinson, auditors', and conveners' reports.

ing included Mrs. Wellington Wilson, citizenship and education; Mrs. W. T. Sinclair, agriculture and Canadian industries; Luena Campbell, historical research; Mrs. K. J. Wilson, home economics and health; Mrs. Walter T. Evans, Tweedsmuir history; Mrs. Norman Snyder, sick and shut-in; Mrs. Erin Thompson and Mrs. Anna Ballantine, helping hand.

A letter of thanks was read from high school principal J. I. Lambert, for a commencement prize, and a letter from Mr. Sowerbutts concerning a pottery demonstration on June 1st to which members and friends are invited.

Mrs. W. T. Sinclair moved a vote of thanks to retiring president Mrs. Clare Wilson for her work during the past year and the new president assumed office.

Following payment of fees, the meeting adjourned for lunch.

FARM NEWS

Halton Farmers Make Ready for Seeding

Reports from seed dealers and farmers with seed for sale indicate that there are still many farmers in Halton requiring seed, grain and forage for seeding operations. Snow coverage on fields has been later this year, and as a result of this some seed purchases are still to be made.

Recommendations for spring grains, corn and hay and pasture crops are contained in the bulletin "1960 Field Crops Recommendations" This pamphlet is available from the Extension Branch of the Ont. Dept. of Agriculture.

In the bulletin there are many hay and pasture mixtures to select from. In selecting a hay or pasture mixture it is important to consider the drainage, and the length of time the mixture is to be kept down.

The most important factor of course is to select the mixture that will provide forage at the proper time for either hay or pasture.

Copies of the bulletin on Field Crop Recommendations may be obtained at the county office of the Ont. Dept. of Agriculture at Milton.

St. Andrew's Minister Tells of Mission Work

Dr. Charles Donald of St. Andrew's United Church was the guest speaker at the Easter Thankoffering of the Afternoon Auxiliary of St. John's United Church, St. Donald was a missionary in India for nineteen years and gave an interesting account of the customs and the every-day way of life of the Indian people. Mrs. Walter Brownridge presided, and Mrs. Clarence Hayes led in the worship period, reading the scripture lesson from Exodus, 3rd Chapter, verses 1-10.

This tells of the way God spoke to Moses through the burning bush, an experience which brought Moses back to God and his people. "God is found in the common order of things," stated Mrs. Hayes "and we should find him first in our homes."

The offering was dedicated by Mrs. Morgan McFarlane. Mrs. Don Hancock was a welcome guest and sang two lovely songs, "I Shall Not Pass This Way Again" and "How Great Thou Art", the latter a request. Mrs. A. J. Vannatter moved a vote of thanks to the speaker and soloist, and others who had contributed to the meeting.

Mrs. Victor MacDonald and Mrs. A. M. Nielsen were in charge of refreshments, and a social time was held over the tea. Mrs. R. H. Wright
