

Try Again, But Highway Land Stays Residential

Rescinding Motion Draws Ire Of Planning Board Chairman

A direct reflection on the original town zoning was named residential. Recently council decided to rezone it commercial, and when this was sent to Queen's Park for approval the Dept. of Planning suggested that residential is the better classification.

Last week's motion, passed by a 63 majority confirmed the government recommendation. Crs. Hunter, Harrison and Mayor Hyde were in favour of the switch to commercial.

On Monday, Mayor Hyde said he can see no other designation for the land but commercial.

"We can't take government word as gospel," he said. "Their ideas are idealistic but often impractical."

The major challenged anyone in the department to say that he would build a house on the land.

"You can't use a reverse argument because the department says one thing we should do another," Cr. Cass argued.

Cr. Cass said that rezoning is an extension of strip zoning which he is trying to avoid on the highway, and that rezoning will benefit only the holder of an option on the land.

Mayor Hyde said council shouldn't be interested in who owns the land, but only in what is best for the town, and in this case he feels commercial is the only proper use for the land.
