How to recognize the new VW

fart of all, there's 10% more power to play with Llow the Volkswagen leaps away that lights Uncreased torque means more receive power in every gear for saler passing but although the engine's stepped up to 40 horsepower, it's still as easy on the gas as ever.

And there's the synchronized first gear. You no longer have to stop the car to change down to first, from second gent, you can shift down smartly into first and whip away. And all the gear ratios have been changed to take advantage of the new engine performance. The luggage space is bigger. There's now ten cubic feet. A full 5 up front and another_5 behind the back seat. Now you can stand all your shopping bags upright under the hood. Or take a family vacation with all your luggage neatly pacted away. The Volkswagen is constantly being

Improved. Unless you drive the new Volkswagen for know what to look for! you can't tell it from last year's model. Or the one before that. Or the one before that In fact, since 1948 no less than nine hundred improvements have been spide to this remarkable car yet it still remains basically the same. That's why the VW retains its value. The Volkswagen is an honest product. While there are other improvements in the new VW. it is Volkswagen's philosophy not to change for the sake of change but to search continually for new ways to and prove a great idea. Some of these improvements in the De

Luxe Volkswagen are also in the Custom model. Whichever you buy, we think you get the best car value in the world. There's so much to say about the new VVV why not get it first light at your Volkswagen dealer's tonight !
