THE MAIL BAG
Stresses Importance of Improving Ninth Line
 75 Sargent Road,
 October 22, 1960.
 Dear Mr. Editor:
 I congratulate you and your paper on the excellent editorial outlining the importance of improving the Ninth Line.
 Most of us are beginning to realize that many benefits can be derived from this natural access to our growing town.
 All important is our desire to attract industry into this area. This should undoubtedly reduce our residential tax assessment. The convenience of a shorter, more economical route to and from Metropolitan Toronto would benefit many Georgetown residents working in the city.
 I have been working quietly on a Ninth Line Prospectus, which, when completed, I intend to hand over to the Town Council.
 By bringing the Ninth Line project to your readers attention, your newspaper has displayed foresight in the best interests of the public it serves.
 Yours in a better Georgetown,
 Robert Burke
