RAIDERS OBSERVE OLD CUSTOM LOSE MILTON OPENER 10-5

Tradition should not be tampered with — especially when it eventually yields success. That was the rule Georgetown Raiders were apparently following Tuesday night when they observed their traditional opening game bombing from Milton Merchants in Milton to start the 1960-61 Intermediate A schedule in the Central Ontario League.

Milton started scoring early and punched goals into the Raider net at a merciless pace to humble their visitors, 10-5. But Georgetowners, who made up a large slice of the sparse Milton crowd, came away nodding their heads philosophically and why not, Raiders haven't been able to break an opening game victory since natural ice.

But while local fans thrugged it off as an unbreakable bad habit, the Miltonians were jubilant at having doubled the score on the club that last spring brushed them aside like a flimsy scrub team. The win was of course deserved. Georgetown spent little time in the Milton end of the ice and what scoring chances they did have in the first period and most of the second were either steered aside by alert Bill Orr, or blown by erratic shooting.

Rat Invasion Worries Council, Seek Remedy

Georgetown may need a Pied Piper unless the county health unit can help eradicate an invasion of rats which, according to residents of Prince Charles Drive is assuming large proportions. The rats made their appearance about two weeks ago, said Mayor Hyde in reporting to council Monday said there have been several complaints from Prince Charles and McIntyre Crescent residents who say the creatures are running across their lawns.

Chapel Street School led off the previous week, followed by Park School, where the children had many displays ready for the parents. At Harrison School also, the parents met and chatted with the teacher. Having just received their report cards at Holy Cross School this was the subject of the parent-teacher talks there too. The teachers at all the schools feel the response of the parents has been greater this year than ever before.
