FOR INFORMATION, TRANSPORTATION DIAL . . . YR. 7-2909

DECEMBER 5th IS E DAY

ELECT FOR DEPUTY-REEVE

Three years' council experience.

Chairman of the North Halton County Urban Board. Represented Georgetown Council at the Civil Defence

Secretary Treasurer of the Georgetown Industrial Commission

A veterall, who lives and works in town as CNR station master.

If elected I will continue to work for the welfare of the whole community, promote unity, economy and industry.

Why You SHOULD Vote

Beard for Mayor

It has been said that I should obtain experience as a Councillor before attempting higher office. A group of responsible ratepayers approached me and sald that my military leadership, business administration, and industrial background could perhaps serve the town better in the capacity of Mayor. After careful consideration I am confident that this is just another

challenging job to which I would give my wholehearted attention. I am also confident that our town must boom and I can visualize this in the next three years. With all the facilities we have, such as water, gas, hydro industrial land, natural park land, services laid on and, most important of all a multi-trade labour force. We have all the attractions for industry.

ladies and Gentlemen, we cannot afford to waste time. We must gear our program to the program that has already been planned for us. If you hesitate now, you will lose the advantage, and the surrounding, Municipalities will reap rewards.

I respectfully solicit your vote for Mayor to head in the commencement of the groundwork. Your town's development will be reported monthly in the local

Vote ERIC BEARD for MAYOR

To the Electorate:

At the end of my first term as mayor, I wish to express my sincere appreciation of the trust bestowed upon me.

At the beginning of 1960, I telt there was one all-important task to face, and that was the financial condition of Georgetown.

I am only too pleased to report that through careful administration and budgeting we have eliminated the deficit, have created a sinking fund for Main St. reconstruction, have created a substantial working capital and have put the financial status of the Corporation in such a position that for the year 1961 there should be littlefor no increase in taxes.

However, 1961 will still demand very cautious and careful adminstration, and to this end I would devote myself.

I wish to solicit your support for Mayor in the coming election. Give careful consideration before you vote, and then exercise your Franchise

and VOIE.

I remain.

Yours sincerely,

E. T. HYDE
