

YES... IT'S A HAT!

PEOPLE ON MAIN ST. did a double take last week when they saw Mrs. George Seddon of Toronto come out of the Herald office. A Queen Elizabeth Hospital employee, she had come to town to deliver a turkey to Harry Knight, 31 Main Street North, who he was in a lucky draw. She was wearing a hat which he won in a lucky draw. A few words of conversation followed and she was on her way with turkey and ornaments. One of the many prizes given away at a drawing that Georgetown has seen in some time.

Introducing Dial Phones Bolton and Caledon East

Dial telephone service will be introduced in Bolton, Castlemore and Caledon East next September, it was announced this week by Lloyd G. Denby, Bell Telephone Co. manager of this territory. He said that two new dial switching centres will come into operation at that time to replace the present manual exchange in Bolton which now serves all three communities. The two new exchange buildings will be in Bolton and Caledon East. Construction of the Bolton exchange building on the north side of proposed Walker Court off Highway 50, is now well advanced and should be completed by April. Upon completion, crews of highly-trained technicians will begin installing the complex dial switching equipment. The Bolton exchange, which will also serve Castlemore customers, will be equipped to provide service for some 2,650 telephones.

Start Building In Caledon East, construction of the exchange building on the First Concession Road will begin next month and is scheduled for completion in April. Here too, installation of the dial switching equipment to serve some 230 telephones will be completed in time for the changeover to dial telephone service in September. Crews of telephone plant people working outside will rearrange and extend the wire and cable network serving these communities and adapt it for use under the dial system. All telephone sets now in service will also be modified for dial operation. This work will be done in the next few weeks. Mr. Denby said, as installation crews must call on every customer to make the necessary adjustments to the sets. Switch Together The whole program must be carefully coordinated so that all telephones in these communities can be switched to dial operation at the same time, and with no interruption in service. Introduction of the two dial exchanges to serve this territory will also cause some adjustment in the present Bolton exchange boundaries. Customers in the north west section of the present Bolton exchange will be served from the new Caledon East exchange as will some customers now within the boundary of the Caledon Municipal Telephone System as the Bell Telephone Co. will assume responsibility for providing telephone service to present Caledon Municipal Telephone System customers also in September. Mr. Denby added that all the customers affected by this change will be notified soon.

Christmas Concert Junior Church School

A Christmas entertainment was held by the junior members of St. Andrew's Sunday School last week when the superintendent, Merrill Horden, acted as chairman. The program was highlighted by the singing of Christmas carols and the presentation of the song story 'The Night Before Christmas'. Two film strips entitled 'Holy Night' and 'The Littlest' were shown and as the program concluded Santa Claus entered to greet each child and give away bags of candy. Coincident with the introduction of dial, Bolton customers will have toll-free calling with Caledon East and Castlemore. Caledon East customers will have toll-free calling with Bolton, Victoria and Kleinburg, and Castlemore customers will have toll-free calling with Bolton, Kleinburg, Woodbridge, Brampton, Malton and Snellgrove. Mr. Denby added that the decision to introduce toll-free calling between neighboring exchanges was based on the strong common interests they share, as reflected by the volume of long distance traffic between them.
