# Halton M.P.P. Stan Hall Speaks to Throne Address

"It is a pleasure for me to have the opportunity of speaking on the Throne address. It has been my pleasure to represent the county of Halton continuously for the past seventeen years in this Assembly. During those years the County of Halton has been one of the fastest developing counties in the province of Ontario both industrial and population wise. It is a great honour to have the privilege of representing such a fine rubing in this assembly. I wish to congratulate you, Mr. Speaker, for the honourable way you fill the position of rep-

resenting Her Majesty the Queen in this assembly. During the years that I have been a member of this Assembly, I have watched a lot of members come and go: Today, there are just ten members in this Assembly who sat in this Assembly during the session of 1944. In fact, during these years, one political party has almost vanished, you might say that party has been forgotten by the citizens of Ontario.

WE HAVE in this assembly a small remnant of the Liberal party making a feeble effort ATION ACT: This Act came ted, thus requiring Ontario Toronto.
