## HONEYMOON IN BERMUDA

**CURBS AND SCOUTS** of 3rd Georgetown Pack here from the Guard of Honour as Mr. and Mrs. Jack Livingstone leave Knox Presbyterian Church following their wedding Saturday, April 8th. The bride is the daughter of Mr. and Mrs. G. W. Fiebig, and the groom is the son of Mrs. Albert Livingstone and the late Mr. Livingstone. The couple flew to Bermuda for their honeymoon.

### WHAT COUNCIL DID

**Resident Seeks Rigid Enforcement Of Posted Speed Limits In Town**  
A strong plea for rigid enforcement of speed limits in the eastern part of town was made to council Monday by Hugh Powell, 72 Duncan Drive. "I was shocked on Sunday to see the dreadful speeds on Duncan Drive and other subdivision streets," he stated in asking that speed limit signs be posted and that council consider a 25 mile limit. Mr. Powell said there is danger to children and he would like to see the police radar unit used and a "get tough" policy which would really make them obey the traffic laws.

Police chairman Hunter said the radar unit is in use every day but unfortunately cannot be used in all places at once. "It has been used on subdivision streets as well as other locations and there have been several drivers fined for speeding. Mayor Hyde pointed out that a 30 mile limit is standard in all communities and that only on the highway is there a 25 mile zone.

"If we could enforce our 30 mile limit, most of the battle would be won," remarked Cr. Ian Cass. Mr. Cass said that he thinks it would be some help if additional cross-overs for cars were created on Sargent Road which is a long street. A possible reduction in natural gas rates was hinted in a letter from United Gas asking council approval before going to the Ontario Energy Board.

A letter of thanks was sent to the Kinsmen Club for donating playground equipment at the community swimming pool to the town. A resignation unit was received from Turret Supply Co. for No. 1 water well at a cost of \$975. Four tires for the water works truck were purchased from Canadian Tire for \$101.00 and 4 large tread tires for the grader from Mayval Motors for \$120 each. By-laws were passed, confirming recent decisions to purchase for \$5,000 a property off Maple Ave. East from Delrex Developments which will be used for sanitary landfill and minor amendments to the zoning by-law which allows double-use garages on adjoining residential lots and a number of other minor changes.

**Two Alliance Men 25 Year Members**  
Two local Alliance men, of 25 years membership, were welcomed into the company's Quarter Century Club Friday at the Elizabeth Room of the Hotel Queensway in St. Catharines. The new members brought to seventeen the number of Quarter Century members still active at the local mill and increased the aggregate membership to thirty. Thirteen members are retired.

A special guest speaker at the annual affair was H. S. Spencer, vice-president of operations for Alliance Paper Mills Ltd., who reviewed the recent integration of Howard Smith Paper Mills with Dominion Tire and Chemical, and the St. Lawrence Paper organization.

The local Alliance Mill is a member of the Howard Smith group and with the recent union becomes part of the second largest company in Canada. William P. Nesbitt, general manager of the Fine Paper division of Howard Smith Mills and an ex-Alliance man, also spoke to the club humorously reminiscing about his days with the Alliance.

**Hospital Gets \$100 For Land Sale Tip**  
At the suggestion of Dr. R. L. Hooper, Delrex Developments Limited has forwarded a cheque for \$100 to the Georgetown Memorial Hospital. Some weeks ago the company announced it would make grants of \$100 to \$500 for information from citizens assisting in land sales or bringing industry to the town. Some days ago, Dr. Hooper was instrumental in the sale of a lot. He thus was enabled to designate the beneficiary of a company grant of \$100. Dr. Hooper named the hospital as the beneficiary.

## Plant Trees on Public Property When Possible

**WHAT COUNCIL DID**  
Council on Monday adopted as a general policy the planting of trees on the street side of residential lot lines wherever possible in the current \$500 program which is being initiated.

However, if this is impractical, some deviation will be permitted. Cr. Ian Cass, who promoted the tree planting idea, explained that any area which shows 75% support in a similar proposal to Sargent Road where residents are sharing in the cost of planting, will be dealt with on a first come - first served basis. But he pointed out that only a few weeks remain this season for effective planting and applications should be in soon.

The councillor explained that it is difficult to deal with individual applications in the program, because a street must be surveyed for tree locations and types of planting. Mayor Hyde said he agrees with the idea but suggested that if any trees are planted on private property, this should be brought to attention of council to avoid any difficulties which might crop up later.

Cr. Wm. F. Hunter stuck to his previous conviction that unless a policy of looking after the new trees is adopted, he would not vote for the tree planting. "I've had some experience with trees and they require care," he said. "And unless they are all to be on town property I will oppose the motion."

Other councillors, however, endorsed the plan, with Mayor Hyde saying that people have indicated their interest by investing their own money.

Gravel for town roads will be purchased this year from the James L. Cook firm which submitted the lowest of three tenders. Granular A will be charged at 72¢ per cubic yard, and granular B at 55¢, either stockpiled or delivered to the road.

A request by Harry Savings, that the boulevard on Queen St. be lowered was turned over to the road committee. Mr. Savings explained that for eight lots off the highway, it is impossible to use driveway approaches from the street because of the steep incline.

**Rotary Raises \$1500 Easter Seal Sales**  
Mr. R. Auld, of the Ontario Society for Crippled Children, was guest speaker at the Rotary Club this week. Mr. Auld described the work of the Society. He told the group how much was raised from Easter Seals, and what the Society does with the money. Georgetown contributed \$1500 through the Easter Seal Campaign, the speaker disclosed.

**Ticket Selling**  
The unusual method of ticket selling for the Minstrel Show was an unqualified success. Rotarian Jack Inglis informed the group. The meeting closed early since the members had to attend a dress rehearsal for the Minstrel Show.

**Labour Council Seeking Ontario Ambulance Service**  
At the monthly meeting of the Oakville and District Labour Council for April a decision was made in the form of a motion that this Labour Council will support the creation of an Ontario Ambulance Service. This item on the agenda of the Oakville Labour Council was debated after a brief submitted to the council by MacBeth Ambulance was distributed to all delegates during the last two months. The brief states that an Ontario Ambulance service is an imminent must since ambulances are not uniform throughout Ontario and several ambulances carry insufficient equipment and have inferior services. The brief further states the statement that unnecessary deaths are imminent because the ambulances have no standards as such and that the government displayed a lack of interest to this vital business until now.

Ed Bruce, president, J. Taylor, secretary and G. G. Heym, 1st vice president of the council commented together: "The public deserves an ambulance service, guided by consideration for the human lives at stake and not by profit motives". All delegates to the Council representing several thousand members of organized labour voted in favour.

**No Open Season for Halton Deer Hunters**  
No open deer season for Halton County in 1961, was the bad news given to local hunters at County Council last week. Hunters will have to go far afield, since there will be no deer season in any Counties in the Lake Huron district. A maximum cost of one million dollars, instead of the suggested one million, three hundred thousand dollars, for the proposed new County building, was recommended by the Property Committee.

They also suggested the building be elevated three to five feet, and better use made of the basement space.

Halton's Warden will be wearing a maroon gown, and a chain of office if present plans materialize. The chain will consist of twenty maple leaves with a large centre medallion. The name of each warden will be engraved on the maple leaves. Unexpected artistic talent was displayed by Reeve Ryckman in his impromptu sketch of the suggested chain of office.

A representative of the Department of Travel and Publicity, Mr. James Gooding, Museum Advisor, met with the County Agriculture Committee, to explain some of the problems connected with the establishing of a museum.

A Halton County Museum would be eligible for a \$800 a year maintenance grant, and \$400 a year salary grant. Mr. Gooding recommended a renovated barn rather than a renovated house, as a museum site. Both will soon be available, according to Chairman Cam Sinclair.

**Returns Incomplete In School Campaign**  
Ted Gorth, Chairman of the residential canvass in the Retarded Children's Campaign, estimates only half the captains have made their final returns. So far, the results are encouraging. As yet, no industrial and business canvass returns are known.

**Tell Unknown Friends At Rebekah Banquet**  
Members of Verdun Rebekah Lodge discovered their "unknown friends" and exchanged gifts at their annual Unknown Friends Banquet last Tuesday in the IOOF Hall. Deputy District President, Sister Verma Graham of Verdun, was a guest at the head table and was accompanied by past District Deputies. The dinner was pot luck, and after the exchange of gifts new "unknown friends" were chosen and will remain a mystery to their beneficiaries until next April. Under the "unknown friend" system each member of the club receives cards and gifts from an unknown friend during various occasions throughout the year and their mysterious partner is revealed at the annual banquet when they sign their name to the final gift. A regular meeting of the lodge was held after the dinner.

**Beyond Church**  
The Salvation Army has marched beyond the doors of stately churches. It has carried the gospel of the Samaritan to the scenes of squalor and poverty and suffering, to the horrors of battle fields, to the torments of disaster. When those stricken look up, the hand of the Army is there to help them.

**No Red Tape**  
Organization of The Salvation Army appears to have less red tape than any other in the world. In emergency, the Army succor appears by magic. There are no fanfares, no head-thumping, no dunning for funds and fees, and no question of color, condition or creed.

**Helping Hand**  
There is hope for the spirit, food for the hungry, to those who need either. And with all go the friendly smiles and strong helping hand of the men and women workers.

**May Campaign**  
Locally, the Red Shield campaign takes place during the month of May, and Don Win-

## BOARD BACKS NIGHT SCHOOL WITH \$200

**Suggest Lower School Subjects Be Taught**  
In an effort to keep Georgetown Night School classes from folding, the Georgetown and District High School Board Monday night, passed a motion guaranteeing Night School up to \$200 if at the end of the 1961-62 term such a debt exists. The board was unanimous in approving the grant and agreed with a suggestion by high school principal J. L. Lambert that the Night School committee be approached about including lower school subjects such as Math and Science in future classes.

Mr. Lambert said the introduction of such subjects would provide an opportunity for those who dropped out of high school early to pick up where they left off. He pointed out that the unskilled were hardest hit by the unemployment situation and that lower-school subjects at Night School could assist many on their way to higher qualifications. Delegates from the board were appointed to attend the upcoming Night School meeting.

**Ted Worrall Named Men's Golf Header**  
Ted Worrall will head the men's section of Georgetown Golf and Country Club in its second season. One of the first golfers off the tee when it opened last year, Ted was named president Sunday when the men's section met for their election of officers in the clubhouse. He succeeds Norm Marchment in the post.

Dave Morgan is the new club secretary, succeeding Hal Newman, and as treasurer Ernie Foster succeeds Gord Robinson. Paul Lewis replaces Alf Sykes as golf captain and Jack McLean fills the new vice-captain's position.

Heading up the committees are Norm Marchment, handicapper; Roger Wade, social; Frank Banks, rules; Jack Kemshead, greens; and Terry Harley, publicity.

Two inter-club matches with Brampton and Trafalgar have already been arranged and tentative dates set, and this season a Men's Day will be held weekly. No specific day of the competitions was settled on.

The meeting was attended by the club directors and professional Jim Burton.

**Plan Cancer Tea as Annual Spring Event**  
The Daffodil Tea held by the Georgetown Branch of the Canadian Cancer Society, Saturday, April 8th, will become an annual affair.

The Tea, held at the home of Misses Jean and Margery Mackenzie, Valleyview Rd., was held in conjunction with the local Cancer Society campaign for funds and will be continued in future years to launch the yearly canvass.

**Doctors' Wives**  
The wife of the president, Mrs. Douglas Latimer, and Mrs. R. E. Wicks, greeted the guests at the door and doctors' wives, Mrs. J. H. Chamberlain, Mrs. O. M. Brewster, Mrs. A. E. Macintosh, Mrs. C. V. Williams and Mrs. R. T. Paul, poured tea. One room was set up as a display of cancer dressings made by some members of the local committee.

Members of the Women's Services Department also served and assisted in the kitchen. The floral centre piece was an arrangement of daffodils, the Cancer Society symbol for the month of April.

**Departmentalize High School Next Term**  
The Georgetown High School teaching staff will become departmentalized next term. At a meeting of the Georgetown and District High School Board Monday a list of proposed heads of departments and acting heads, was submitted by principal J. L. Lambert and unanimously approved. Their appointment, however, is subject to the approval of the Department of Education.

Recommended for department heads were, John R. Bellamy, Maths; George S. Rogister, Science; and Miss Florence Luke, Moderns; and as acting department heads, Paul Legge, English; and Blair Armstrong, Commercial. School enrolment and the volume of teaching periods necessitated the change to departments. The new system will mean an improved calibre of instruction.

**REPUTATION SOARING** — Peter Jones, Georgetown, has only been in adult class competition since the fall and already has three Reserve Winners honours to his credit. Here he poses with Miss Laura Treble of Tanhardt Kennel.
