

NEW DOCTOR

Dr. PAUL PANABAKER, who just completed his internship at St. Michael's Hospital, Toronto, is the most recent doctor to begin practicing here. Dr. Panabaker moved into the office in the Carratell Bldg. vacated by Dr. Hooper. He is a native of Hespeler.

Record Number Join Land Judging Contest

Soil classification and management, was outlined to a record number of 411 and Junior Farmer members at Halton's fourth annual Land Judging Competition.

Stewarttown
The competition this year was held in the Stewarttown area, with judging at Brockton farm, and an educational tour in the immediate area. The competition was conducted by the Halton county office of the Extension Branch, Ontario Department of Agriculture, in cooperation with the Soils Dept., OAC, and the Twelve, Sixteen, and Credit Valley Conservation Authorities.

Each contestant classified 4 soil types, and rated each of these for the growing of alfalfa, wheat, corn and apples. In addition, each contestant gave reasons for his selection.

Senior Operators
In cooperation with the Halton Soils and Crop Improvement Assoc., a soil tour for senior farm operators was held during the morning of the Land Judging. The senior tour was under the direction of J. A. Francis, Agricultural Representative, and Earle Muir, Fruit and Vegetable extension specialist.

The Junior Farmer Land Judging competition was under the direction of J. Douglas Burnside, with instructions given by C. Leuty, Conservation Field Officer, Galt; and J. Magarty, Soils Dept., OAC.

Dance at Stewarttown Follows Acton Wedding

A lovely summer wedding was followed by a dinner for nearly 100 guests and a dance in Stewarttown Hall for many friends when Ann Isabel Watkins and Edward George Norton were married Saturday, July 15th. The double ring ceremony in the Knox Presbyterian Church, Acton, was conducted by the Rev. A. H. McKenzie at four o'clock, baskets of summer flowers forming the setting.

The bride is the daughter of Mr. and Mrs. Wilmer Watkins of R. 5 Shelburne, formerly of 207 Mill St., Acton, and the groom is the son of Mr. and Mrs. Roy Norton, Sr., ninth line, Glen Williams.

George Elliott played the organ and accompanied Norman Elliott who sang "The Lord's Prayer and O Promise Me."

Traditional Gown
The bride's full-length white gown was fashioned with two layers of drifting net over taffeta, topped by silk organza. The sweetheart neckline was outlined in lace. A pearl tiara held her fine net veil in four tiers. She carried red sweetheart roses and baby white bouquets with ivory and white satin ribbon.

Miss Katharine Kirkness of Acton, a friend of the bride, was her maid of honor wearing a full skirted dress of aqua chiffon over matching taffeta with a softly rounded neckline and pleated bodice. The skirt ended in a deep hem. Aqua chiffon, shaped into leaves and flowers, formed her headpiece and her shoes and gloves were white. Her bouquet of white abasha daisies was centred by three carnations dyed to match her gown.

The two bridesmaids were Miss Marjorie Gough of R.R. 4, a friend, and Miss Doris Robinson of R.R. 2, Rockwood, a cousin of the bride.

Their gowns were the same as the maid of honor's but in shrimp pink with the carnations in the centre of their bouquets the same hue.

Basket of Flowers
The bride's niece, Miss Heather Watkins of Long Branch was flower girl wearing a full-skirted dress of shrimp pink taffeta under light pink chiffon with a shrimp pink headband and white accessories. She carried a basket of white abasha daisies and pink carnations.

Wilmer Watkins gave his daughter in marriage. Roy Norton Jr., Glen Williams, brother of the groom, was his best man while the ushers were Bill Watkins, Toronto, brother of the bride; George Robinson, R.R. 2, Rockwood, cousin of the bride; A. Grey, Nor-

Standard Acquires Rights For Structural Gaskets

The Standard Products Company, automotive and building products supplier, has acquired all sales and production rights for the curtain-wall structural gaskets developed by the Inland Manufacturing Division of General Motors Corporation and distributed nationally by William A. Reynolds & Co., Inc., Cleveland.

Structural gaskets, the large neoprene rubber seals which support glass panels and other panels used in modern curtain-wall construction, prevent leakage and serve as a structural member locking large glass and panel areas in position to withstand wind and weather.

Standard Products will market the combined line of its own and Inland's structural gaskets under the new trade name 'Stanlock.'

F. R. Valpey, president of Standard Products, said that the structural gasket field has grown very rapidly from total sales of \$10,000 in 1956 to over a million dollars a year at present. Based on the increased interest by architects, future use of this product in the building industry appears to be unlimited.

He pointed out that Standard Products during recent years has developed its own structural gaskets line to meet the needs of this fast-growing market, and said that the combination of this line with the Inland product line will provide Standard Products with "the predominant manufacturing position in the industry for supplying a quality gasket."

The acquisition included all engineering know-how, tools, dies, molds, drawings and compounds used in the manufacture of Inlock Structural Gaskets, plus the United States and Canadian sales network of 44 architectural representatives set up by William A. Reynolds & Co., Inc., which will direct a nationwide gasket sales and service program for Standard Products.

"Using structural gaskets in curtain-wall and window-wall systems improves efficiency of this type of construction and at the same time reduces erection costs," Mr. Valpey said.

The gaskets are placed at the perimeter of building openings. Then the glass, metal panels,

Land Use Studied For Soil Project

By J. A. F.

A special Land use and Soils programme was planned for Halton County, on Thursday, July 13th. Eleven locations were selected in Esqueping Township for a Soils Tour for farm operators. In addition, a Land Judging Competition was held for 411 and Junior Farmer members.

Soils Tour
Both programmes commenced at 8:15 a.m. Thursday, July 13th, from the Esqueping Township Hall, at Stewarttown.

The Soils tour for farm operators, included a discussion of various types of soil and their best use. Soils were classified and discussed from the standpoint of their ability to grow certain crops.

Kelso Dam
The Land Use tour concluded at noon, with a tour of the construction of the Kelso Dam project near Milton.

The Land Judging Competition included an instructional Soils tour during the morning. In the afternoon each contestant classified four soils types and rated their use for growing certain crops. An important phase of the Competition is the contestant's reasons for his or her Land Use rating.

Important
A proper appreciation of the soil is a basic and most important key to successful farming. The Soils Tours over the last three years have been an outstanding success. The project is sponsored by the Extension Branch of the Ontario Department of Agriculture for Halton County. In cooperation with the Soils Department, Ontario Agricultural College; and the Credit Valley, 16 Mile Creek, and 12 Mile Creek Conservation authorities.

BELLS WERE RINGING

JUDITH FLORENCE HVEDEHAVE, daughter of Mr. and Mrs. K. W. Hvedehave, R.R. 4, Georgetown, became Mrs. Corey Freeman in a ceremony in St. Stephen's Anglican Church, Hornby, on July 15th. The groom, a former GGeorgetown High School student, is the son of Mr. and Mrs. Low Freeman.

Church Bell Peals At Hornby Wedding

The old bell on St. Stephen's (Anglican) Church, Hornby, pealed loud and long after the marriage on Saturday, July 15, of Judith Florence Hvedehave, daughter of Mr. and Mrs. K. W. Hvedehave, R.R. 4, Georgetown, to Mr. Corey Ronald Freeman, son of Mr. and Mrs. Freeman, R.R. 2, Brampton, formerly of Aylesford, NS. The Rev. J. E. Maxwell officiated at the double-ring ceremony at five o'clock. Mrs. A. Byr, R.R. 2, Norval, played the organ. Her selections were "The Voice That Breathed O'er Eden" and "O Perfect Love." The church was decorated with tall standards of very large stalks of different varieties of blue delphiniums and madonna lilies. The altar flowers were madonna lilies and pink lilythum.

Satin
The bride wore a beautiful ivory slipper satin gown fashioned with light bodice, full gathered skirt with a panel front, low cut round neckline with short sleeves. The bodice was appliqued with alcon lace below the neckline. Tiny satin buttons ran from the top to below the waist, which buttoned with satin loops. The very full skirt fell to a chapel train. Her headpiece was a satin crown, the same material as her gown, applied with alcon lace from which her ivory tulle veil fell below shoulder length. She wore matching shoes and lace gloves. Her bouquet was a cascade of ivory and red roses. She also wore a string of cultured pearls and matching earrings, which were a gift from the groom.

Cascades
Miss Mary Kullar, Shelburne, was maid of honour. Miss Clarellen Hughes, Islington, cousin of the bride, was bridesmaid. They wore identical dresses, short bell-shaped in lilac shade made of peau de soie with over-skirts of organza. They wore large flat bows made of the same material as their dresses. Lilac shoes and beige gloves. Bouquets were a cascade of white and lilac mums.

Mr. Douglas Copeland, Acton, was best man, Mr. Reginald

Mighty Mouse Has His Day

Johannesburg: A snake park in this South African city had a candidate for the title of Mighty Mouse — a mouse that killed a six foot black mamba snake.

But Mighty Mouse is no longer alive to enjoy the glory that put him on the front pages of Johannesburg newspapers. Snake park custodians said the mouse was put into the mamba's glass cage as food for the snake which eats only living animals. The mouse immediately attacked the snake, biting it.

Infection set in and the mamba died. It made no attempt to kill the mouse.

The mouse ended his days in a cage of rattlesnakes. They proved too tough for him.

GEORGETOWN MEMORIAL HOSPITAL NEWS

Too often is the remark passed that "Now that the hospital is a reality, we suppose the need for money is not as big or as urgent as before."

But the fact remains that every dollar, every penny pledged, is as essential as before. The financing of the building was carried out by bank loan, and the security for the repayment was of course the pledges that had been received. So it remains a vital necessity that all those who have pledged over a period of time, keep up the payments as regularly as possible. And of course, if it is possible to pay them ahead of time, that is all to the good, as it saves interest and cut capital indebtedness.

To those who have moved to our community since the construction of the Georgetown & District Memorial Hospital, may we urge that you give serious consideration to giving or pledging whatever you may feel that you can. This was possibly the most urgent of all our community's needs, and it is certainly not too late to have a part in this great effort.

Pledges or new donations are still being accepted gratefully by the treasurer, Mrs. Bill Hamilton, 8 Reid Court, or at either bank in town. For information about donations or bequests, phone Mrs. Hamilton, the administrator Mr. Gilhooly, any member of the Board, or chairman of the Donations & Bequests committee, Mr. F. Denney Charles.

To avoid unnecessary confusion we mention the above regarding where to pay pledges, because many enquiries are being received as to whether pledges are to be paid at the hospital since it has opened.
