

WHAT COUNCIL DID

Consider Pension Plan For Employees of Town

Initial action on a pension plan for town employees will be taken when council's administration committee meets with a representative of the Ontario government to find out what types of plans are available under sponsorship of the Dept. of Municipal Affairs.

More Details

A circular read at Monday's Council meeting outlined some of the procedure which a town can adopt and interest was expressed by councillors in hearing more details.

The problem of Robert Letts, who interviewed council about re-employment with the town works staff was also turned over to the administration committee.

Non-Residents

Mr. Letts said he had been laid off six weeks ago with a promise of more work at a later date. Since then, he claimed several men have been taken on and he wondered if single non-residents should have preference over married taxpayers.
