

Georgetown's Striking New **MAIN STREET**

During the Project
and below the completed job

PARTNERS IN PROGRESS

Georgetown, in the hub of Ontario's Golden TRIangle, has a spanking new Main Street . . . wider than before, with all-new pavement and sidewalks

We are proud to have been chosen to lay the asphalt surface . . . and we assure residents that every care has been taken to do a fine job which will serve downtown shoppers for many years to come.

We salute Georgetown — a progressive community which knows the importance of a modern shopping area.
