ESQUESING COUNCIL

Paint Job Brightens Council Chambers

Business was dull and brief at Esquesing Council meeting Monday night, but the surroundings were much lighter and brighter, since the new pale beige paint job has been completed.

Esquesing Council authorized payment of $1548 to the Sixteen Mile Conservation Authority as their share for 1961. This amount covers the normal operating expenses.

More Than Half Finished

They also paid $4,388 toward the Kelso Dam project. This is one half the total Esquesing share in the project. Deputy-Reeve W. Bird reported the Kelso Dam is more than half finished, and felt the water might be in it this year.

Speed Limit

As a result of protests by parents last week, Esquesing council requested the County Engineer to take the necessary steps to have the speed limit reduced to thirty miles an hour all through Stewarttown, right from the Check Line, to the school.

In addition, they asked that No. 15 sideroad be designated a through road, and signs erected accordingly.

September road accounts totalling $14,657 were passed. oRad Superintendent W. Townsend warned that the maintenance costs were geting close to the budget limit, however, the construction budget still had a fair way to go.

A colorful letter from Miss Flynn, of Highway 25, south of Acton, was read to council. Miss Flynn praised the area, the scenery, the friendly people but vehemently decried the odour from Beardmore Tanneries. "We cannot open a window," she stated. She concluded by saying, "If the big shots like the smell so much, let them buy property and move in."

Charge Juveniles In Dairy Break-in

Two juveniles have been apprehended following a break-in at Steen's Maple Leaf Dairy on Water Street.

According to police the break-in took place sometime during the night of Thursday, September 28th or early Friday morning. When the juveniles were picked up they admitted to the theft of cigarettes and confections.

Local Men Are Pit Mechanics For Ryan

Peter Ryan's victory over Ricardo Rodrigues, Sterling Moss and the rest of a stellar field in the first Canadian Grand Prix Saturday got a direct boost from a pair of Georgetown men.

Jimmy Mercer, 43 Stevens Cresc.; and Art Battison, 103 Sargent Road, pit mechanics with the Comstock racing team, worked night and day to fit Ryan's Lotus with an extra gas tank, and completed the job just before race time. The spare tank, designed and constructed by the local men, saved Ryan from making time-consuming pit stops to refuel and was credited with giving him the necessary edge.

David Lounds got the nod for the boys' singles, and Tony Crimes and Barry Shepherd will carry the colour in the boys' doubles.

Georgetown's best effort is expected to come from the doubles teams.

THE MOST IMPORTANT HALF INCH IN A CARPET TODAY....

Pile is the pay-off point. It is the most important ½ inch in your home — the base of textured color that unifies the home into a liveable setting and brings every piece of furniture to life.

Today the Canadian public has the largest choice of styles in carpeting history. The more one looks, the more staggering becomes the range of colours, textures, patterns and materials.

That is why we have to be sure we have only the best. We can't dabble with 30 or 40 lines that confuse the buyer. Our lean clean line has each — from humble viscose to deep wool, each is the best value in its class.

Next time you think of that important ½ inch of carpet pile, come look at our selection.
