A large crowd and happy feet Midtown in the early minutes of Saturday morning last. These teens were more than satisfied with the Twilights for the second time. We hope no one will miss the Twilights next time. As our schedule is tight next time may not be until January.

As many persons feel the dance should be held on a Saturday night sometimes. This week yes, next week yes, in two weeks no. O.K.? A record hop has been laid on for this week but we shall not be sure until Saturday night at 8:30 or 9:00.

On November 25th, Saturday, Club Midtown presents the Return of Danny and the Juniors with the Consul, and Little Caesar. Admission is \$1.50 and that includes a membership if you don't have one.

Have you heard a 'song' (sneaked), called the Peppermint Twist? It is done by somebody called Dee and the Starlighters. I thought I'd heard songs that were lousy before but this is lousy.

It may not be the worst song in history, but it will do until these 'dolls' put out another one. (Music Guild forbids of the series 'Music for Deaf Mutes' and I hope Dar Tot listens very carefully to it so he can be sick too.)

I hate to associate the great Ben E. King so closely to amateur hour but his recording of 'Young Boy Blues' has just got to be straight to the top as Spanish Harlem did. Another big one to be is Neil Sedaka's 'Happy Birthday Sweet Sixteen.'

Improvement Program Aids Dairy Production

During the past year 70 of Halton's dairy farmers have been taking part in the Dairy Herd Improvement Association.

This programme which combines production per cow, along with cost of production records, assisting dairy farmers in the county. By using the production figures per county, and comparing the cost of production figures with the county and provincial averages, dairymen using this programme are meeting the best price square.

Halton County has three Associations. F. W. Chisholm is supervisor for the Halton East Association, Geo. W. McCormack is supervisor for the Halton West Association, and Howie K. K. is the supervisor for the Halton Centre Association.

The project is sponsored by the Ontario Department of Agriculture as a service towards efficient dairy production. Each month milk yields and butter fat tests are computed and records kept on production costs. At the end of the lactation records are computed for each cow. Although the Association has been operating for a few membership opportunities are available. Farmers interested in this programme should contact the Extension Branch of the Ontario Department of Agriculture, Milton.
