## EDITORIAL COMMENT

# Building Prospects Bright

"Construction of 262 homes in the new Mobre Park subdivision as planned for this year, will be good news to the construction business in Georgetown.

The subdivision is one more step in the town's growth, and provides another acreage of evailable industrial and commercial area to add to that already allocated for future business in other parts of town.

Beginning of the subdivision marks the and of an era, for the Moore farm is the last major farm acreage within town bends. Farm assessment, once a major part of the town's tex structure, will shrink to an infinitesimal portion with removal of this land

which has proved to be so elusive in the Past Jew years will favour locating in town. A community of commuters is much less' preferable than a large proportion of locallyemployed men and women.

Every resident should try harder than ever in future to boost the town as one of the best in the province and to convince industrialists that they will have happy employees and a fine future by building their

### Fine Entertainment Addition

The new Riviers which opened on New Year's Eve in Norval is a fine addition to the district's entertainment facilities, and we wish Find Zuber and those associated with him in the venture the very best for the future.

The club has a fine dance floor, and prchestra shell, an attractive decor and particularly important when floor shows are baing featured, a semi-circular table arrangement ensures that every customer has
