

## LOCKYER STREAMLINES OPERATION

A MOVING CRANE dismantles Lockyer Ready-Mix Cement plant, part of the busy goingson at the Locker site on Armstrong Avenue last Monday when the company revamped Its mixing operation. The huge bin was taken apart piece by piece, transported 300 feet, and re-assembled where trucks could drive up a ramp and dump gravel right Into the to of the mixing bin. The switch in systems speeded up the Lockyer operation considerably since beforehand the gravel was stock-piled and then fed into the bin by a clam. Moving the plant 300 feet took just 24 hours.

## ONCE AGAIN - THE LUCERNES!

By popular demand (of Mush) the Lucernes with us this Friday night (Feb. 23) at the Rose Room, Sounds good? Well, here's where the fun begins — due to circumstances beyond our control' we are forced to start a temporary raise in the admission cost to a dollar and a dollar plus a quarter. This will last only a few weeks until the last of the Club's debts are paid; as it is the Club, with ordinary rates, has pulled itself part way out of the red. Last week we 'lost' and that is the main reason for this week's change.

I thought some more about my opinion of Jeay Dee and the Starlighters - after hearing some cuts off their album about the Peppermint Twist, well maybe they're not so bad as I thought, I guess it was just the three clowns who were FRESH EVERY DAY shaking around when I saw them, that put me off them from the start. 'Hey Let's Twist', their latest and greatest single seems to be more human than that other noise they called music. .

- No word on next week's dance yet but keep tuned In.

S.P. Del'Shannon's 'Jennie the Mirror' should go greatly, also 'Dream Baby' by Roy Orbison should be in the Top Five in 2-3 weeks. (March 10). That record, 'Let Me In' should be put out permanently. It's nothing but a very loud, overplayed Noise.
