CURLING HATTER
by Bob MacArthur
from the
North Halton GOLF and COUNTRY CLUB

There was only one game played in each draw this past week. The Thursday draw was cancelled to let the Orangeville visitors have a game with eight rinks from the local club. I'm told that the visitors really put on a display and showed the local rinks how to curl. The local club only won one game and tied one. Not so good, but congratulations to the winners.

On Friday for some reason, the switch that controls the ice-making machines failed to operate, and naturally with the mild weather, the ice had water on it until late Friday night. So the Friday draw was cancelled also. This also made for slow ice in the bonspiel on Saturday.

Here's an idea for those golfers who just can't wait for the greens to dry out. It seems that up in Timmins the golfers get the urge to swing a few clubs while the snow is on the fairways. So, they sponsor a pine needle tournament in the middle of winter and instead of using golf balls, they use red tennis balls. A good time is had by all participants and the long winter months seem to go faster. It might be worth a try next winter here.

A number of cards were distributed at the local bonspiel on Saturday, which contained a poem used on Col. Herbert J. Mackie's Christmas card over twenty years ago, and the point is still well taken:

THE CURLER'S RETURN
"Who's the stranger, mother dear,
Look, he knows us — ain't he queer?"
"Hush my own, don't talk so wild
He's your father, dearest child."
"He my father? Not at all,
Father died away last fall."
"Father didn't die, you cub,
Father joined a Curling Club."
But they've closed the Club, so he
Has no place to go, you see;
No place left for him to roam,
That is why he's coming home.
Home to see his familiee
Which for months he wouldn't see.
Kiss him — he won't bite you child,
All these curling bugs aren't wild."

The Rice & Mellerg curling trophy has arrived and it will be up for grabs on Saturday, April 14th. It will be a men's club spiel and will likely be on a rink basis. There will also be a moccasin dance in the evening for the members and their guests.

They successfully downed Orangeville, Durham, Acton and Elora in the preliminary rounds and in the double elimination play defeated Elora a second time to take the title with five straight wins.

After defeating girls from Paris and Westhill, last year's singles champion, Diane Dutchnour of Georgetown had to be satisfied with runner-up spot to Kincaid's student, is applying herself before this year and was not up to her usual top form. In his first year of badminton competition, Bob Selter, Georgetown's representative in the boys' singles, was successful in his matches against Elora and Grand Valley, but was eliminated by losses to players from Kincaid and Acton.

The boys' doubles team of Tony Crumey and Harry Sheppard also new to tournament competition, won their match with Grand Valley, but lost out to teams from Guelph and Waterloo-Oxford.

A new combination in the mixed doubles of Betty Quackenbush and George McNeil made an excellent showing as they won three matches and lost two. After defeating Milton, Guelph and Preston entrants, they lost to Paris and Elora, the eventual finalists in this division.

In all, the Georgetown team won 14 matches and lost 8, and by means of the girls' doubles championship and the runner-up place in the girls' singles, earned 8 points to stand third behind Kincaid and Elora for the team championship.

Pool County's emergency measures organization last week began training an inspection force that will check all municipal buildings in the country to determine how much protection from radiation can be expected.

The Canadian Porsche entry at Sebring finished 26th this year — the Comstock Sadtler has been completely rebuilt and is neither a front nor rear engine car. Advanced word says the engine is in the middle of the car, beside the driver — the new Corvair Syder (turbo-supercharged) is now available — Detroit car manufacturers are cashing in on the demand for high performance options — Canadians are now becoming better known in the international racing circuit through Ludwig Hainrich and Peter Ryan — It's a fact. The average modified production racing engine has a total life of 20 minutes (twenty) at maximum rpm.
