WHEN MANITOBA WAS A LAKE THE GEORGETOWN HERALD Thursday, April 26th, 1962 PAGE 6

In prehistoric times, a lake of about 110,000 square miles covered most of what is now Manitoba, North Dakota and Minnesota, says the Hook of Knowledge. It dried up with the passing of the Ice Age, leaving only Lakes Winnipeg, Manitoba, Winnipegosis and Lake of the Woods. The fertile soil of the Red River Valley is simply the fine silt of the bed of this vast pleistocene lake.

Want Trees Planted Closer to Street

A tree planting project, jointly financed by residents and the town treasury, is under way on Hale Drive, Alton Road and a portion of Norton Crescent.

Residents, represented by A. M. Sutherland and Frank Rixen asked council Monday to have the plantings done between the sidewalks and road, rather than on the property side as they had heard is planned.

This would interfere with private landscaping Mr. Sutherland explained.

Council agreed to consider this and the planning committee will re-examine the site before planting takes place.

FOR THE CHEESE FANS TO MAKE FINE CHEESECAKES

Put a pint of warm cream into a saucepan over the fire, and when it is warm, add to it five quarts of new milk. Then put in some rennet, stir it, and when it is turned put the curd into a linen cloth or bag. Let the whey drain from it, but do not squeeze it too much. Put it into a mortar, and pound it as fine as butter. Add one half pound of sweet almonds blanched, one half pound of macaroons, or Naples biscuits. Then add nine well beaten yolks of eggs, a grated nutmeg, a little rose or orange water and a half pound of fine sugar. Mix all well together.

BREAD CHEESECAKES

Slice a penny loaf as thin as possible, pour on it a pint of boiling cream, and let it stand two hours. Beat together 8 eggs, half a pound of butter, and a grated nutmeg; mix them into the cream and bread with half a pound of currants well washed and dried and a spoonful of white wine or brandy. Bake them in patty pans, on a raised crust.

RICE CHEESECAKES

Boil 4 ounces of rice till it is tender, and then put it into a sieve to drain; mix with it 4 eggs well beaten up, half pound of butter; half a pint of cream, 6 ounces of sugar, a nutmeg grated, a glass of brandy, or ratalia water. Beat them all well together, then put them into raised crusts, and bake them in a moderate oven.

ALMOND CHEESECAKES

Put 4 ounces of blanched sweet almonds into cold water and beat them in a marble mortar or wooden bowl, with some rose water. Put to it 4 ounces of sugar, and the yolks of 4 eggs—beat fine. Work it till it becomes white and froth, and then make a rich puff paste as follows. Take half a pound of flour, and ¼ of a pound of butter; rub a little of the butter into the flour, mix it stiff with a little cold water, and then roll out the paste. Strain on a little flour and lay over it in thin bits ¼ of the butter, throw a little more flour over the bottom, and do the like three different times. Put the paste into the tins, grate sugar over them, and bake them gently.
