### -School Meet Winners Pile Up 210 Points At Guelph on Saturday

Despite a new handicapping system which placed. double burden on Georgetown High School athletes, the local track and field team covering themselves with glory bosin Saturday as they rewrote standing records, copped division championships and sprinted off with the District 6 secondary school track and field meet title. GHS athletes stacked 210 points in carning the laurels for the second year in succession. The Acton Team was second, well back with 156 points, daspite the fact that they received 1's points to Georgetown's I in the scoring, and Erin, with a 2 to 1 advantage finished third. The Milton contingent trailed.

The meet was held at the Ontario Agricultural College, Guelph, the same surroundings in which the Georgetown team will vie this weekend for the CWOSSA title with about 600 contestants representing other schools.

manded admiration. Figures of course placed second Damage amounted to \$125 other Georgetown competitors both open relays. toppled existing times in other events, which in most cases S. Brampton was parking his of the old ones last year.

"Different altogether," said Cr. Harrison, 'That is a natural water course."

At this point, Cr. McNellly reiterated a charge that burning of garbage is still taking place at the landfill site.

"The industrial commission has been talking to an industrywhich sasks clean air as one of its main objects, and burning garbage wen't help interest them in Georgetown," he tald. Public works chairman Jim Brown rose to Mr. Lane' det-

Private trucks are using the landfill site too, he said, and it has not been established that all the fires are being started by Mr. Lane, who holds the town garbage contract. He suggested that the area he policed. Cr. Barrager supported him.

Mare Cooperation "There are two or three loads of baled waste paper deposited at the site each day and we have a bigger problem than just pointing our finger the contractor," he said.

Instead of insinuations, Cr. Barrager said he thought a little more cooperation among all the parties involved could eliminate a lot of the problems. "Cr. Harrison should know more than any of us the problems involved," he said, which brought an instant query 'why'?

from the councillor. "You worked for Mr. Lane. when the landfill site was near your place of employment/ explained Cr. Barrager.

Cr. Harrison said there is nothing in the garbage contract to recompense the contractor for taking care of industrial waste. "This should be taken into account when we draw up the next contract. We can't ext the it to be looked after for nothing" he said.

Mayor Sargent said the public works committee should review the garbage by-law. Cr. Harrison asked that the

committee study the possibility of an incinerator, but Cr. Bares rager said this had been investig are probibitive.
