LEGION NOTES

by Andy A. St. Laurent

LEGION SHOOT

The annual shoot took place last Saturday between Br. 120 and the Lorne Scot regiment. Two trophies were competed for — the first one, the Labatt trophy, was contested between Branch 120 and the whole of the Lorne Scots regiment, while the Henry Shepherd Memorial trophy was contested by Branch 120 and 'C' Coy. of the Lorne Scots, Georgetown. The Legion team was outclassed in both matches. If our boys were as good with rifles as they are with the darts, I'm sure it would have been a different story.

MEETING

The Nov. general meeting has been moved up one week and will be held at the auditorium on the 15th of Nov. instead of the 22nd. Also nominations of officers will take place that same evening, so members do all possible to be present that evening in order that you may nominate the candidate of your choice for the 1963 term of office.

The Legion Imperial division held their first autumn dance last Friday, with Ralph Ursel's big band, 'The Manhattan' providing the music. Mr. and Mrs. Hedley were the winners of the first spot dance. Mrs. K. Watson dancing with Mr. Jack Ferguson, were the winners of the 2nd one. All present seemed

to be enjoying themselves and this first autumn dance can surely be called a success.

NO CASUALTIES

They did a funny dance, I don't know if it is called the twist, mish-mash, hot potato, or hound dog, but it seems that all participants run into the middle from an outside circle and crash (fortunately there were no casualties) ...

GOB COLLIER TO HEAD POPPY COMMITTEE

Gob Collier was named to head Georgetown Legion branch's 1962 poppy committee. The announcement at a special meeting at which a committee was chosen.

Mr. Collier said that plans are being formulated for the campaign and he also expressed a desire to see more residents taking part in the Remembrance Day ceremony at the cenotaph.

"This year we would like to have more residents take a more active part in Remembrance by placing wreaths." He pointed out that many residents who want to place wreaths were not aware that such participation was encouraged.

Anyone wishing to purchase wreaths may contact Gob Collier at TR. 7-4079.

ASHGROVE

Ashgrove Ladies Present Program at the Manor

On Tuesday evening, Oct. 23rd, about thirty of our W.I. members gathered at Halton Manor and entertained the residents with a birthday party. The president, Mrs. Fred Nurse welcomed everyone and said how pleased they were to be there. Secretary Mrs. Bob Alexander called the Institute Roll and each member stood as her name was called. Mrs. Charles Austin as program convener called on Mrs. Frank Wilson and Mrs. James Carney for piano duets; Mrs. Francis Thompson sang lovely solos, followed by Howson Ruddell, who showed beautiful colored pictures of Mexico City, the desert region of Arizona, the sand hills of California and Boulder Dam. Miss Marjorie Thompson of the Manor thanked everyone for coming and the entertaining program, after which Mrs. John Ruddell called out the names of the residents who had birthdays in October and each one was presented with a fancy hat and seated at the head table centred with a lovely cake and all sang Happy Birthday to them. The Manor is a beautiful place and all the residents seem so happy and contented. It was a real pleasure to visit with them after lunch. The evening concluded by singing the Queen.

At the church service on Sunday morning two dear little babies were presented for baptism by their parents—Bri-

an Gordon, son of Mr. and Mrs. Gordon Wingfield and Elaine Grace, daughter of Mr. and Mrs. Ralph Cunningham. Visitors at the service for this occasion were Mrs. J. E. Dunn of Streetsville, Mr. and Mrs. E. Fish and Mr. and Mrs. Ken Fish, Lynne and Joanne, all from Orangeville.

Ugh! We sure didn't like the wintry snowy weather over the week-end. It made hazardous driving for the grown-ups, but the children just loved it. They revelled in rolling in the white stuff and making snow balls.

Aladdin rubbed her lamp which she carried on a pillow, and the genie in the form of a judge, declared her the winner in the female division. Perhaps afraid of the same fate that befell Caesar, the judge awarded the prize in the male division to Brutus, complete with Roman Tunic, and laurel wreath.

A uniformed Student Prince took tickets at the door, and black and white clad French maids showed the way to the tables. This masquerade was a real ball.

McCLARY EASY DRYER

DELUXE FEATURES

at an

EVERYDAY PRICE!

EXCLUSIVE METERED-AIR DRYING

McClary Easy's exclusive Metered-Air system gives you more drying — economically — and uses less electricity. In fact, Metered-Air drying costs 20% less to operate than other dryers! Incoming air travelling around the heated cylinder becomes preheated while keeping the cabinet cool. Then the air is drawn through a special "metering" intake, over and through the heating unit — then evenly distributed through the clothes as they revolve in the perforated cylinder. Finally, the air is vacuum forced through the lint filter and out through the vent.

SAFETY DOOR

Footproof switch, hinge-operated and INSIDE the cabinet, shuts off the mechanism the moment door is opened — can't restart until door is closed.

OVERSIZE LINT FILTER

Cylindrical lint filter with over 300 sq. in. of effective filter area has more than twice as much as most other makes. Lint cannot build up inside dryer, because air is vacuum-drawn away, not blown into filter.

VENTING TO SUIT EVERY INSTALLATION

The McClary-Easy 300 Dryer can be installed anywhere without alterations in the dryer cabinet. There are provisions for venting 6 WAYS — UP, DOWN, FRONT, BACK, or EITHER SIDE! Wonderfully convenient!

TIME CONTROL WITH 3 HEAT SELECTIONS

A complete selection of time settings allows you to dry all Regular fabrics, Delicates, Synthetics and Wash 'n Wear. You simply set the drying time. At the end of the drying period, the heat shuts off, clothes are cooled down for comfortable handling, then the dryer automatically stops. Two hour Time control permits "plug in" 115 volt installation. There are three heat selections. High is just right for regular fabrics, medium for Delicates, Synthetics, and Wash 'n Wear, Air Pluff for drying special items at room temperature.
