Again in '63 INCREASED MUTUAL LIFE **POLICYHOLDERS** 

The Mutual Life of Canada policyholders are accustomed to big dividends. The company is famous for its outstanding dividend record. The increased dividends that will be paid to policyholders in 1963 will further

reduce the low net cost of their insurance. The Mutual Lafe has been providing policyholders with insurance coverage at the lowest possible cost since 1869 and has been applying the same principles to group insurance since the company entered that field.

You can share in the dividends that go with Mutual Life of Cagada policies. Your nearest Mutual Life representative will provide complete information on the advantages of Mutual Life of Canada protection.

The Mutual Life ASSURANCE COMPANY OF CANADA.

The company with the outstanding dividend record
