BOB DEMVERSE BEATS Welland Merchants goalie J. Atkinson, with the third Raider goal here Friday, but the red team got no more pucks past the lanky netminder so went under for the second time in three games 6 to 3.

CURLING HATTER

Bob MacArthur from the

North Halton GOLF and COUNTRY CLUB

The Sunday evening social curling has sure taken the fancy of the members and good turnout are reported. The social curling was cancelled last Sunday because of the large number who took part in the Langdon bonspiel on Saturday. There were draws with 21 W. Basset 0

Clipped from somewhere — The curling boom has taken hold even in California. A Granite club was opened in Los Angeles, and there is a total membership of 115 members. If you are travelling down that way, you will be welcomed as a visitor. Hope you can drop in at some time.

Due to the flooding of the ice last Monday, the first draw of the week had to be cancelled. The ice on Tuesday was very heavy and quite a number of the pushers could not seem to get the stones down the house. This was due to the very fine pebble on the ice but by the time more pebble had been applied the ice was in fine shape. This is likely the last time the ice will be flooded this season.

Some of the golfers are getting the old bug early this year. Asked Kelly about the opening date and he said that the weather will regulate the opening date. Cheer up—it should be in full swing in three months.

If you are planning on playing in more bonspiels this year, better get your entry in at once, as the curling will be all over in a month.

Here are the results of the games played last week:

If this column seems sort of jumbled, well there is a reason. At the best I'm a two finger operator, but when you try to listen to Guy Lombardo and also Wayne and Shuster, well their finished copy just does not come out as you think it will. But then the season will soon be over and you will be turning to another sport.

SPORTSMEN OUTDOORS

BY FRED DARBY

The Sportsmen's Show opens March 15th and promises to be bigger and better than ever. Members of the Georgetown Anglers and Hunters will be in attendance at the Federation Booth at the show March 16th. If you are planning to visit the Sportsmen's Show on March 16th drop into the booth and say hello. I know the club members in attendance would be glad to have a chance to show you what the Ontario Federation is all about. Yours truly will be there and only too glad to discuss any questions about hunting and fishing that you may have. Or we can just sit and see who can tell the biggest whopper about our last fishing or hunting trip.

The Credit Valley Conservation Authority has accepted with great enthusiasm a suggestion made by the Fish Committee of the Georgetown Anglers and Hunters. The suggestion made was for a Junior Trout day to be held in the area controlled by the Credit Valley Authority. Ted Spearin, Field Officer for the Authority has been given the go ahead, to make the arrangements for a Junior trout day on a trial basis. If arrangements can be made in time it will be held in 1963, if not the spring of 1964. The Junior trout day will be run similar to the one held annually in Toronto by the MTRCA.

The CVCA has also shown keen interest in our local club's plea to have the lower Credit River stocked with Brown trout. Information indicates that the Dept. of Lands & Forests is reluctant to stock Brown trout in any river in Southern Ontario. Their reasons are that Southern Ontario is polluted with Brown trout and are too hard for the average fisherman to catch. I'll have more information later on this subject. I'll also have more on what our club and the Federation intends to do about the problem.

BELL LINES

by Lloyd Denby your telephone manager

FROM THE MOUTHS OF BABES

Talking to an old friend the other day, I heard an amusing little anecdote which illustrates a point which might mean something to many of us. It seems his four-year-old daughter answered the telephone attached to the kitchen wall. She climbed up on a chair beside the table to reach the phone. The caller wanted to speak to her mother. As the little girl climbed down, she dropped the receiver which hit the table with a clatter, fell off to swing from the spiral cord and bounced against the wall. She got her hands on the instrument and inquired of the caller, "Are you hurt?"

In this story of the tiny tot and the telephone you may see the reason for teaching children, even at the tender age of four, the importance of good telephone manners. She may not have used the same apologetic phrase you or I might have used, but you must admit that she certainly was considerate.

CLEANING PROBLEM?

People ask me occasionally "What's the best way to clean my telephone?" Well, the answer is quite simple, a damp cloth keeps any phone clean and shining. Never clean your telephone with soap and water though, as water may penetrate into the set and put your service out of order. Also, the outer plastic shell doesn't require any special waxes or polishes. Just by way of interest, you might like to know that there's no need to keep your telephone surgically clean. Laboratory tests have shown that a telephone does not serve as a shelter for germs from a previous user. So, if you just give your set the damp cloth treatment occasionally, your phone will be shining and spotless.

BELLS ARE RINGING

Ever been in one of these situations, ladies? Just about to take a pie from the oven... phone rings in the living room; washing the dinner dishes... phone rings in the living room; after coaxing the baby to eat his lunch and he's taking the first spoonful... phone rings in the living room; dash out of the kitchen to answer the phone. Perhaps you realized just at that moment how convenient a kitchen extension telephone would be. With a phone within your reach, you could continue with the jobs mentioned without an abrupt break and a dash to another room. Maybe it was cost that held you back when you thought you should pick up your phone and call our business office to order an extension. Well, if that is the case, you'd really be surprised how little it costs... only a few pennies a day. Why don't you give us a call right away?
