

A SPECIAL BADGE FOR BONNIE

PROVINCIAL COMMISSIONER Mrs. Dr. Gunn pins the Badge of Fortitude on 6th Georgetown rounie Bonnie Cannell, 40 Mary St., in a special ceremony at the St. John's United Church. At right is Bonnie's mother who is a Brownie Division Trailer. When she enrolled as a Brownie, Bonnie, a victim of Neuphrosis, was in a wheelchair and for a long time was an 'extension-Brownie', and though attached to the pack took her training at home. Recently she has been able to attend some of the meetings. The Badge of Fortitude is presented very infrequently and it is believed that this is only the second time it has been awarded here.

Auxiliary Offers Inaugurate Control At Hospital

A visitors control system may be operating in Georgetown and District Memorial Hospital early next month. At a general meeting of the hospital women's auxiliaries Tuesday, March 12th, the volunteer services director Mrs. George Hewson reported on the new system which came about as the result of recently announced changes in the visiting hours.

The visitors control which will limit the number of persons visiting a patient to two will probably be a card system. An auxiliary volunteer at a desk in the hospital lobby will be issuing cards to the visitors. When a patient has the maximum number of visitors, others calling on the same patient would be required to wait in the lobby until one of the two cards is returned. The system would require an auxiliary volunteer each night from 6:30 to 8 p.m. and weekend afternoons.

Mrs. Walter Hope chaired the meeting which was held in the high school. The minutes and treasurer's report were read by Mrs. Edna Bodnar and Mrs. A. Maugeest respectively. It was the 1963 budget was approved.

Coolheaded Trucker Avoids Catastrophe as Brakes Fail

A truck without brakes and a driver with 25 years behind the wheel played unexpected roles in a thrilling roadside drama at Hornby Thursday.

Truck driver Jack Campbell, 48, R.R. 4, Acton, was approaching the hamlet's main intersection when his truck's brakes failed.

"I broke out in a cold sweat I went numb," Campbell reported later. His truck rumbled through the intersection down a private lane and came to rest in a garden owned by butcher Gordon Lee.

It left a trail of destruction and almost destroyed Lee's home which sits at the end of the "T" intersection. When steering clear of the Lee home, Campbell sideswiped a station wagon parked in the lane, and knocked down a three pole supporting three generators.

Damage to hydro facilities alone totalled over \$5,000.00. The generators service a large slaughterhouse operation here.

Campbell's truck, which was coming south from Georgetown, was loaded with 12 tons of bricks for a Hamilton construction project.

A trail of bricks marked the route steered by the trucker. He said the air brakes were in good order when he left Georgetown.

"I heard the truck shoot its horn" and then the driver lean over the horn" said witness Fred Arnold. "I knew he was in trouble. Whatta piece of drivin' mess methods and extended personal services to their customers."

Campbell said he unsuccessfully tried to gear the big truck down. The emergency brakes would not hold. "It was the most helpless day night, March 14th, at which time Mr. A. J. Hillis president, made presentations to 20 new members of Canadian Tire's 25-year Club.
