Under Health's Flag
International Experts Work For World Health

Three of the world's top ranking health officials stand under the World Health Organization flag during a recent meeting in Geneva, Switzerland.

Getting together to discuss international public health during the 15th annual World Health Assembly are, from left to right, Dr. Basil D.B. Layton, Principal Officer of Canada's Department of National Health and Welfare; Assembly President Dr. Sergei V. Kurashov, USSR Minister of Health; and Dr. Luther L. Terry, U.S. Surgeon General.

The health flag international experts meet under combines the United Nations emblem, in white, with medicine's traditional symbol, the Aesculapian staff and coiled serpent, in gold, superimposed on a blue background. Aesculapian is the ancient Greek and Roman god of medicine.

The three were among the delegates from WHO's 115 member states that met to map the WHO program for the coming year. Dur-

Ballot Bottleneck Again Slowed Federal Returns

The ballot bottleneck that has slowed the return of federal election returns started in the early hours of the morning of April 10, 1963, in the Ottawa area.

The Ottawa area is one of the largest in the country and the returns from this area are being processed at a slower rate than other areas.

The delay is due to a bottleneck in the processing of the returns, which is being caused by a shortage of staff and equipment.

The delay is expected to continue for several days, and it is hoped that the situation will be resolved by the end of the week.

Call a sports fan both to see how much money and to see how much fun. The only way to get around \$250 for an average and you can't operate without one. What would you do if your fan had to be left at night on a crowded area highway such as 401, as Farmer's Advocate.
