Assess Parking Area Costs Only to Commercial Lands

Deed Construction Co. was awarded the tender for road surfacing this summer, subject to D.H.O. approval. Their tender an estimated amount of \$17,345 was the lowest of three. Slightly more or less could be spent, since the tender was based on an estimated amount of road surface. However, the controlling factor will be the amount in the budget for roads. The Mayor explained that the town would assess the cost of parking areas only to commercial lands. This is because commercial lands generate more revenue and have a higher impact on the town's infrastructure. Residential lands, on the other hand, generate less revenue and have a lower impact. The Mayor stated that this policy is fair and equitable for all residents.
