Milton Artist Generous With Free Instruction

by Roy Downs

Mentally retarded pupils at North Halton's Sunshine School on the 7th line below Ashgrove have been taking art lessons from a real professional lately. And they love every minute of it!

William Roberts of Milton, who has been an instructor at Ontario College of Art for the past five years and who next fall becomes the first resident artist at University of Western Ontario, has been visiting the school once or twice a month since last year to give some extra art instruction to the 15 students.

And he's doing it all on his own time at no cost to the Association, which operates the Sunshine School.

Wandered In

A resident of Milton for the past two years he was passing the Sunshine School one day when it was headed on Brown St. in Milton, and saw some pupils' art hanging in the window. "I walked up to the front door and asked Mrs. Jeffares the principal if she could use some help. She grabbed my arm and pulled me in," he relates.

Ever since Mrs. Jeffares' permanent spare time hobby dropped into the school on some art education they wouldn't usually receive in their weekly

Contemplated purchase of a diesel tractor which would cost over \$4,000 ran into a dead end last night in council. Three on Monday night were opposed by the other six councilors.

The discussion centered on a large share of the council meeting and started with a proposal to purchase from a district dealer in a part max. part after basis.

The machine would be used for weed cutting, snow removal and sand loading and would be a decided asset to town equipment according to Councillors Young and Thorne.

The councilors claim the town is poorly equipped and spends too heavily on rental equipment.

"Cheap to hire a man der call, he said, because he for weed cutting" was Deputy Reeve Hunter's opinion.

Cr. Smith pointed out that a mower purchased in 1961 has not only been used once because was put
