While the name "Establishment" sounds odd for a revue, there is a logical reason for it. The name has been taken from the club in which the show originated. It was a club for politicians, who, in turn, demanded humour akin particularly to their activities, thus was born the political satire known as the "Establishment."

Harley Supports Pay Increase for M.P.s

Ottawa (Special) An increase in the indemnities and allowances of members of Parliament to \$15,000 or \$16,000 a year is under active consideration and is likely to get the support of Halton County's Dr. Harry Harley, Liberal.

Harley served notice during a television program prior to free for backbench members his election to a second term in Ottawa that he would support any move to increase indemnities to \$20,000.

Dr. Harley cited the cost of maintaining a residence in Ottawa as well as a home in the respective ridings as one of the strongest arguments for increased indemnities.

Members of parliament now are paid a basic \$8,000 a year indemnity, set in 1954, and receive a \$2,000 annual tax free with Sunday visitors.

The proposal reported to be under discussion among the parties in the Commons is either to double the \$8,000 rate and absorb the \$2,000, for a new total of \$16,000 or to bring in a 50 percent increase on the present combined rate of \$10,000 for a new total of \$15,000.

Also being discussed is whether or not the expense allowance should continue to be tax free for backbench members of the Commons.
