Esquering Makes The Move

MODERN BUILDING NEW TOWNSHIP OFFICES

ESQUERING TOWNSHIP Clerk K. C. Lindsey loaded with records and a helping hand in his case leaves the old township office at Stewartstown enroute to the modern building across the 7th line west of town which houses the new Esquering headquarters. Most of the moving was done last week. The township offices have been in the Stewart Hall since 1925. K. C. has been there as Clerk since 1952. The new building includes a council chamber, clerk's office, assessors' office, surveyor's office, and other offices yet to be designated.

Water Statistics More Than Just "Dry Figures"

The gauges at the water works tell a lot more than water was used to date this year. The consumption of water they year was June 26th, when you get up, when 2,980,000 gallons gurgled out of your lawn, when you go to bed, when you water of taps.

Believe it or not, as Bill Ley says, the water works knows that church attendance has fallen off this summer, because the "heavy draw" of water only one million two hundred thousand gallons were used during the whole of 1962.

They know most Georgetowners start shortly after eleven a.m. the morning when most church services begin.

They know most Georgetowners rise about 7:30 and go to bed about eleven-thirty. How? Commenting on the lower consumption these last two weeks, operator Frank Rohan about 11:15 at night, looks down and says, "You see it shows like right after listening to the radio, people are away on vacation, and the factories are shut down."

So if the Martians want to know the habits of the human race, just take them to our water works, everyone decides to take vacation, and the factories are a bath, individually that is.

The lawn watering is done mostly between 7 o'clock and 9:30 at night, according to Ley.

These aquatic monitors have been installed in the water works.

GIANTS FROM THE STEAM AGE COMING TO LIFE

GORD BRIDGEN of Bridgen Manufacturing, Hornby, got up one of the fire engines from another one that was to be sold for the annual Steam Reunion in Milton this month. Gord is one of the most ardent collectors of steam-powered machinery and looks forward to the annual gathering together of steam users and steam manufacturers. Gord's passion is repairing and preparing steam engines for their mobile hobbies to use as a fire engine.
