Hornby United Given Gift of New Tower

Hornby United Church received a new church tower recently and it was dedicated "to the glory and praise of God" in a service there Oct 20th. Gordon Brigden well-known Hornby manufacturer who operates a machine shop in the village, donated it to the church

Rev John C Hill, minister of the church, conducted the dedication. The tower is eight sided, in keeping with the shape of the orginal wooden tower that once graced the church. The symbol of the oval above it is derived from the outline of a fish, which was once used as a secret symbol by which Christians identified one another during the days of persecution The initial of the words, "Jesus Christ, Son of God, Saviour" spell the Greek word for fish

The 'X' in the centre of the oval is the Greek letter Chi, the first letter in the Greek word for Christ and the traditional symbol for the person of Christ

Mr. Brigden reports the tower received several coats of aluminum paint before it was erected, because, "I don't want to have to climb up there and paint it every year"
