Health Unit

Recommends New 1964 Salary Schedule

A recommended 1964 salary schedule for personnel of the Halton County Health Unit was brought before County Council and showed a general increase for many of the unit's key personnel.

Last month Dr. Archie Bull, county health officer, told the personnel and office administration committee he had "grave misgivings" as to the right and responsibility of the committee to review the salaries paid to members of his staff.

Georgetown Reeve John Elliott remarked that it is the intention of the committee to review the salaries of all the boards and committees employing persons and receiving funds from the County.

The suggested recommendations for 1964 are as follows: Dr. A. F. Bull, \$12,385; Dr. L. M. Stuart, \$9,500.

For sanitary inspectors it was Chief Inspector J. A. Powell, \$6,400; Senior Inspectors L. A. McCreech, \$6,150, and K. Politt, \$6,550. Sanitary Inspectors G. A. Sullivan, D. C. Jones, D. Lawson, E. N. Ray and J. M. Watt will receive \$5,000 while G. Ambrose \$4,500.

Director of Nursing Miss G. J. Leavelle will receive \$6,250. Nursing Supervisors Miss F. Stewart and Miss Bertha Reid will both receive \$5,350.

Dr. M. E. Jarrett, dentist (part time) will receive \$3,200.

SUGAR and SPICE

By Bill Smiley

Well, chaps, I hope you got exactly what you wanted on Christmas Day. And exactly what you deserved on New Year's Day.

Here we are, with the whole of another unpredictable year ahead of us, and even an extra day tossed in. All those bright, shiny days, fresh from the mint of time, not a chip or a crack or a stain on a single one of them.

Wouldn't it be wonderful if we could wrap them in cotton wool, put them away in a safe place, and bring them out, fresh and gleaming to use when we wanted them?

Wouldn't it be grand to un-wrap 10 golden days without a tarnish on the, and spend them in one reckless sweep; or just look at their perfection; or give them to someone who needed them?

Wouldn't it be lovely, in some gloomy week in some bleak November, when the leaves weren't raked and the taxes weren't paid, and the flu was making the bones melt, to reach into that secret place and pull out just one or two of those sparkling days without a blemish on them?

Wouldn't it be fun to walk through a hospital or a mental home or an old people's refuge, with a big bag of clean and shining days, and scatter them among the inmates with a lavish hand?

Wouldn't it be glorious, when the winds howl and the snow flies and the trees snap off under a defiant, to reach into the hiding place, feel around carefully, pull out apristine, silver day and exult, "Good old first-day of July! Am I glad I haven't spent you!"

Wouldn't it be a treat, some day when the old lady was nagging, the kids were bug-ging, the work was behind, the phone was ringing, and the spirit was flagging, to reach casually into the great pile of unspent days and come up

IN JAPAN

Christmas is observed with less fanfare in Japan despite the fact that fewer than one per cent of the country's population is Christian. Each year, Tokyo's streets are bright with holiday decorations, and "White Christmas" is almost as popular as it is in America.

APPLIANCE GIFT SHOULD PLEASE

To make a hit with an appliance gift, think first of the needs of the recipient.

Too often, gift buyers make the mistake of selling what they themselves would like or need. An electric fry pan is a practical gift — unless there is already one in the family. An electric can opener is usually a fine gift, but it's not too much appreciated by the family that uses little canned foods or has no place to put the appliance.

A portable stove may be a good gift for an apartment dweller, yet will have little value in the family which boasts a thermostatically controlled range.
