Expect Hamilton to Drop From Halton Baseball Loop

Chances of Georgetown Giants facing the same five teams they faced during the 1963 intermediate baseball season are slim to none.

Indications are last year's Hamilton entry, the Cardinals, will not be back. All of last season's other entries—Dundas, Campbellville, Milton, Oakville and Georgetown—are expected back.

Best hope for another Hamilton entry lies with an ex-juniator, the Vikings.

PUSHING THE SEASON

SCRATCH ONE BAT AND SPITBALL

GEORGETOWN MINOR BASEBALL Association share a laugh over some pieces of baseball equipment that were weeded out during some C.M.B.A. inventory last Thursday night. Prime reason for the meeting was to elect governors of a minor league baseball program here this season.

Giants After a Crowd Getting Set For Season

It's not hard to be a Giant killer—just stay away from the annual public meeting of the Georgetown Intermediate Baseball Giants Wednesday night.

That's not a suggestion, that's just how it is. A Giant killer, as an unpopular species that can retard or accelerate the success of baseball in Georgetown.

CURLING CHATTER

Understand from the bonspiel committees that the two open dates for bonspiels are filled already. They are the mixed open on March 14th and the men's open on March 21st.

Nels Robinson, assisted by Oliver Hunter, sure had a fine array of prizes lined up for the Farmers' Bonspiel last Saturday. There were prizes for every team that competed.

RAIDERS LOSING THEIR HEADS?

HOCKEY PLAYERS have been known to lose their heads in the heat of a crucial game—but not literally. Despite evidence here, Mike Finnigan does have a head on his shoulders. This unusual shot was taken when Finnigan hoisted his stick after a Georgetown goal Sunday.

This we change. This we don't.

Now you can see for yourself where we make most of our changes. Way down deep. Every part you can see (and every part you can't see) has been changed again and again and again. As a matter of fact, there are only six parts left from the original VW.

But we never change the Volkswagen without a reason. And the only reason is to make it even better.

When we do make a change, we try to make the new part fit older models, too.

So you'll find that many VW parts are interchangeable from one year to the next.

Which is why it's actually easier to get parts for a VW than for many domestic cars. And why VW service is as good as it is. The same principle holds good for the beetle shops.

We made the rear window bigger, one year so you could see other people better.

And made the tail lights bigger so other people could see you better. But nothing drastic. Any Volkswagen hood still fits any VW ever made. So does any fender.

And, in case you hadn't noticed, every VW still looks like every other VW.

Which may turn out to be the nicest thing of all about the car. It doesn't go in one year and out the other.
