**Three Peonies Beautiful  
Addition to the Garden**

The Georgetown Horticulturalists were treated to a talk on "Tree Peonies" at their May meeting in the Howard Wrigglesworth auditorium.

The talk, delivered by Mrs. Wes Ineson, was illustrated by coloured slides, some of which were especially imported from the United States.

The large attendance of members and visitors were told the "Tree Peony" is actually a bush and its origin dates back to the year 685 in China. Although it is a rather slow growing species, it will attain a size of from 5 to 6 feet high and nearly as wide, and should live to 75 or 100 years of age.

The Tree Peony produces large blooms 10 to 12 inches across and in either single, semi-double, or double flowers of vivid colours. The bush of tree is more disease resistant than the regular peony and is being grown quite successfully as far north as Vergus, showing no special winter protection is necessary.

Mrs. Ineson, assisted by her husband at the projector, showed coloured slides and two short movies taken of various other kinds of peonies and roses giving the names and other pertinent information of the varieties.

The chairman, Mr. Herb Bender, introduced the speaker and Mr. George Y. Moore thanked her for making known to the membership such an interesting plant which will surely gain more in popularity in the future.

The Spring Plant Exchange which followed, was ably conducted by Mr. Bob Barber who acted as auctioneer. He and his assistants were kept quite busy due to the abundance of plant material and the interest shown by those present.

The lucky draw winners were Mrs. G. Wright, Mrs. G. Charles and Miss L. Mole. Mrs. Wright who was prize of plant material.

The meeting ended with refreshments being served by the Social Committee.

**CNR Lays Charges  
Against Strikers**

Trespassing charges have been laid against ten Smith and Stone strikers by the Canadian National Railway.

Toronto CNR officials stated last week that the charges were laid under the Railway Act of Canada following an incident two weeks ago when a group of strikers prevented a locomotive from taking four boxcars out of the S and S plant.

At that time several strikers sat on and between the rails and refused to budge even after Frank Daley, an official of District 50, United Mine Workers of America, warned them they were breaking the law and could be arrested.

Railway officials added that the charges were laid only against strikers that CNR police could identify. The names of the ten charged were not disclosed.
