

Stewarttown Couple Have "At Home" for Anniversary

MR. AND MRS. J. J. ATKINSON

Stewarttown residents for ten years, and before that market gardeners at Inlington, Mr. and Mrs. Atkinson were married in Inlington United open house Wednesday, August 5. It was their fiftieth wedding anniversary.

Some sixty neighbours and other friends called during the day to extend congratulations. In the evening there was a family dinner party of the original wedding party. Mrs. Atkinson's sister, Mrs. Harold Kinson of Toronto, was a guest on Wednesday.

Organist, Choir Leader Attend Music Workshop

Mrs. Harold Inglis, organist at Glen Williams United Church, and Mrs. John Hunter, choir director at the same church were among 75 church organists, choir directors and ministers who registered Wednesday, August 12th for the fourth annual Church Music Workshop held last week at the University of Waterloo.

The workshop, which began as a one-day event three years ago was expanded this year to a full-filled three days, in residence seminar. Special events this year included a panel discussion Thursday evening and a model worship service, Friday evening.

Dr. Austin C. Lovelace, minister of music at Christ Church Methodist, New York City, conducted sessions on anthems and hymns. Don Malin, composer, arranger and educational director of Mills Music, New York, was in charge of the youth and junior choir sessions. John S. McIntosh, head of the organ and theory departments of the College of Music, University of Western Ontario, London, conducted the organ sessions. This is the first year that organ sessions have been held on campus in connection with the workshop.

Pipes, Reels at Party For Scottish Visitors

The skirt of the pipes and the sound of hearty laughter could be heard of the home of Mr. and Mrs. George Calder, 95 Sargeant Road, when they held a "gathering of the clan" party to honour three Scottish guests from overseas, on Saturday evening, August 8th. His sister, Cathie Fraser and brother Robert and an aunt, Mrs. Louie McCallum are here visiting. Eleven members of the clan were present along with friends from town, three Scots from Buffalo and nine from Oakville.

Alex Calder played the pipes during the supper period and also for the dancing of the lively Scottish reels. All of the guests took their turn at entertaining and the result was a gay happy occasion. Big Chief Running Water (Mac McDonough) presented the three guests with gifts on behalf of the Calder Clan.

Potato, Dairy Farms Are Visited by Halton Farmers

Hamilton and Wentworth County was the location for this year's Halton County 4-H bus trip, on Wednesday, August 5th. Sixty 4-H Club Members from Halton were shown points of interest in Wentworth County by host Elmer Lark, Assistant Agricultural Representative for Wentworth.

The Club Members travelled from Milton to Hamilton and visited the Hamilton District Cattle Breeders' Association. Maurice Freeman, Manager, conducted a tour of the barns and storage lab.

Later a visit was made to Horden's Dairy in Hamilton. With the sales manager as a guide, they were shown the bottling process in the plant. The Sales Manager also gave a talk on some of the problems that faced the firm in plant layout and marketing of milk while expanding their operations.

During the lunch hour, the 4-H Members went on a cruise of Hamilton Bay. While having lunch they were able to see some of the sights of Hamilton Harbour.

Leaving Hamilton in the afternoon, they first visited Marshall Bros. farm. This farm specializes in potatoes, growing about 300 acres. The members visited a field where a giant-size potato digger was yielding several specimens.

operating. They also saw the bulk trucks for moving the potatoes from the field to the packing area. A grading and packing machine also was in operation. The Marshall farm had two large storage houses where potatoes were stored in bulk during the winter. The farm also produces forty thousand boxes of strawberries daily, at the height of their season.

A dairy farm was the next stop. Joe Loewith and son, Harry, face a land squeeze problem and are attempting to make the best use of the available land they have. Using a system of minimum pasture, they feed haylage to their herd of 100 cattle, during the summer months and refill their two silos with corn for the winter. The third cutting of alfalfa is now over 15 inches tall. Mr. Loewith explained he was aiming for production of 8 ton of hay per acre and 40 ton of silage per acre. Loewith's have installed a new milking parlour, complete with picture windows, for milking 50 head of cattle.

The trip was concluded with a visit to the area between Peters' and Clappison's Corners which was hardest hit by army worms. A corn field was examined and a diligent search yielded several specimens.

Calendar of Halton Agricultural Events

- Thurs., Aug. 20th Halton 4-H Beef Calf Club, Regular Meeting, Pat Patterson's Farm.
- Thurs., Aug. 20, Halton Farm Safety Council, Regular Meeting, Agricultural Office.
- Mon., Aug. 24th 4-H Tractor Club, Regular Meeting, Dal's Farm, Machinery Shop.
- Tue., Aug. 25th 4-H Grain Club, Regular Meeting, Agricultural Office, Milton.
- Wed., Aug. 26th, Coaching Night for C.N.E. Judging, Sample C.N.E. Competition, Agricultural Office, Milton.
- Thurs., Aug. 27th, Acton 4-H Grain Club, Regular Meeting, Calvin Aitken's Farm.
- Mon., Aug. 31st, 4-H Corn Club, Regular Meeting, Agricultural Office, Milton.
- ALFALFA BLOAT CAUSES DEATH OF TEN STEERS**
- Ten steers have died from bloat in Halton County in the past week, according to a spokesman for the Department of Agriculture.
- Heavy alfalfa feeding was blamed by the spokesman for the deaths, which have occurred at two Halton County farms.
- The growth of alfalfa during the past few weeks has been very rapid, according to the department, due to the high rainfall and warm weather.
- The spokesman said that because of this situation alfalfa has a higher bloat potential. He said that if the wet, warm weather continues there is a very real danger that more animals will be affected.

REPORT FROM U. N. SEMINAR

Prominent Indian Ladies Discuss Their People's Problems

Because of the support of the local Lions Club we had the privilege of attending the U.N. seminar at the Geneva Park YMCA camp at Lake Couchiching. Both of us were deeply impressed by what we learned there and we wish to share this experience with you. The following is the fourth in a series of articles based on the different topics that we discussed there.

If there is an Indian problem often we tend to overlook the Indians' situation. Lately, however, publicity concerning Indians is increasing through the efforts of such people as Miss Kahn-Tineta Horn, an Indian from the Mohawk reservation at Kahnawake and known for her dynamic speeches, and Mrs. Ethel Brant Monture who is a direct descendant of the Mohawk chief, Joseph Brant, and who is also an author of a book on the history of the Mohawk people.

At the seminar we were able to hear these ladies speak about their people at the Geneva Park Conference this summer. I think that the so-called Indian problem is caused by the Indian's fear of losing his homeland, a fear of having his culture die out, and a feeling that he must be ashamed of being an Indian. The Indians have lost much of their land to the white man already. Their population is increasing rapidly yet they will still have the same amount of land in a few years. As the Indian Affairs Branch of the Government aims at integration many fear that the old culture will gradually die. The feeling of shame stems from the fact that Indians are often discriminated against, especially in job opportunities.

Miss Kahn-Tineta Horn put forth her solution to the problem. She stated that people get the wrong impression of Indians from history books and television. They are not the savage, inhuman beasts with bows and arrows slaughtering the white man that we so often see on our T.V. screens. Miss Horn, however, does claim that Indians are different. They have their own conceptions of money, time, alcohol, and law. Miss Horn, therefore, believes that segregation is the only answer and she has made a three-point plan to (1) defend the Indian lands, (2) unite the Indians under one constitution, and (3) educate and train the Indians. She says that at the moment Indians must put up with the government's fabulous commissions and in return get nothing but rotten land; deals and beauty contests.

Mrs. Monture does not stand for segregation of her people, but she at least wants recognition. She attacked the misconceptions of Indians arising from T.V. and books. Children learn how the Indians planted corn and set up tepees, but they do not learn of the democracy Indians had years before the white man arrived. Indian language and costumes have influenced our life so much that the Indian and European cultures cannot be separated in Canada. The Indians, used to their own culture on the reserves, now find it very difficult to adjust to our fast moving business society. Arriving in the city an Indian feels a vast loneliness, just as anyone from the country experiences in the city. He has a lack of skills for city life. He learns a trade in school but still must be taught such conventions as being on time. The Indian also has the inner problem of adjusting to our society. Too often he is overwhelmed by these sudden changes and returns to the reserve in fear and panic.

What can we do to help? First of all we should learn about the Canadian Indian today, and see that the correct information is put into our children's history books and on television. The government has promised the Indians more reforms because present aid is inadequate. So far they have failed to carry out their pledge and they need a little public urging. Finally, we should not discriminate against Indians. They have proved that they are our equals when given the same opportunities. Let us not be the ones that deny our fellow citizens these opportunities.
