

Unique and sensationally new — the styling of the 1965 Corvair — typified here in the Corsa Sport Coupe with hardtop styling that appears in five closed models this year. The new Corsa Series replaces the Monza Spyder. The all-new Corvair is lower, wider and longer, with new ride and power poised on new wider treads. The lines of the all-new body are clean and uncluttered with curved side windows used for a slimmer appearance and more shoulder room. Inside, the instrument panel, steering wheel, stylish trim, heater and defroster, two-key locking system and easier-operating doors are all new. New hubcaps and wheel trim covers complete the all-new exterior. Corvair's new ride and power this year is produced by a new body-frame, Corvette-type articulating link independent rear suspension, modified front suspension and modified steering system. It means sports car handling and manoeuvrability with increased stability. The Corvair for '65 is offered in three series and seven models.

Legion Notes

## November is Target Date End Legion Reconstruction

By Don W. Plath

This column has been absent from these pages during the summer months due to vacation, recreation, relaxation and procrastination. The holiday, however, is over as the summer dearth of Branch 120 activities has become an autumn wealth virtually forcing this writer's pen to paper lest the adjective lazy be attached to his name. By far the most momentous item of interest to Legion members is the conversion of our beautiful old home into a dusty shell resembling an ant hill after a thunder shower. Word from the head of the Mackenzie clan is that the savages with the wrecking bars and jack hammers have been sent off to ply their talents elsewhere and henceforth all energy will be expended toward reconstruction. A comforting thought.

Ours is a face-lifting in reverse in that the outside will remain the same but the inside will be replaced. By far the biggest structural change is the removal of the old building's backbone which took the form of a twenty-one inch thick stone wall reaching from foundation to roof. Right through the centre of the building. The 90,000 pounds of stone and concrete have been replaced by 5010 pounds of structural steel which is stronger in its job than the original wall. Due to a desire to keep the main beam from projecting too deeply into the room below a special type of beam normally used in skyscrapers and weighing 87 pounds per foot was selected for the job.

LIMEHOUSE

### Institute, 4-H Club Prizewinners at Fair

Congratulations to the W.I. in winning a special prize for their display at Acton Fall Fair, and to the 4-H Club girls and their leaders in winning a special award with their display.

Keith Ruddell is recuperating following tonsilectomy last week in Georgetown Hospital.

We extend sympathy to the Culps in the sudden passing of her father, Mr. Beatty last week. The funeral was at Hillsburg on Friday.

Mr. Fred Gishy attended the Warner-Blanchard wedding at Church of Christ Deciples Church, Hillsburg on Saturday.

Birthday greetings to Stephen Spitzer, who celebrated his sixth on Sunday.

The W.A. had another successful sale of foods at their booth at Acton Fair on Saturday. A week ago they catered for the Mason-Lattimer wedding reception in the Legion Hall in Milton. The ladies are now planning the annual church anniversary supper for next week.

Mrs. Ted Brown and Mrs. E. Karn attended training school for 4-H Club leaders at Drumquin last week.

Rally Day was observed at Limehouse on Sunday. John McDonald read the scripture lessons. There will be no Sunday School on Sept. 21 due to the church anniversary services.

Mr. and Mrs. Alvin Karn and Marie of London visited Karn's here on Sunday.

This is insurance against Lead foot Harry the walking wind.

As for the more visible parts of reconstruction the upstairs will have hardwood flooring in the large hall with plastic tile in the smaller rooms such as the kitchen etc. The walls will be paneled in hardboard and the ceiling finished in acoustical tile. At the present rate of progress all activities will move into a finished upstairs on October 10.

Downstairs the floor will be terrazzo throughout. The walls and ceiling, like upstairs, will be prefinished hardboard panels and acoustical tile. If all goes well downstairs then the entire job will be completed by November 14th. Then the Housewarming Party!

All finishing dates given are one week later than those originally planned and the delay has been caused by all things, a labour shortage.

SPORTS  
Two teams will be journeying out of town in the near future in an attempt to place the first new trophies on the new trophy shelf. The Horshoe Hurlers will travel to New Hamburg on Saturday, September 26 and the Divot Diggers will go to the Rockway Golf Club in Kitchener on the following Saturday, October 3. In both cases the teams will be competing in Provincial Tour.

HORNBY

### Pictorial Plates Project For St. Stephen's Guild

The September meeting of the St. Stephen's Anglican Church Guild was held at the home of Mrs. Vera Cramp with ten members attending. The president, Mrs. John Russell, opened the meeting with the Guild Prayer repeated in unison. The minutes of the last meeting were read and adopted. Mrs. Jean Drew-Brook, read the treasurer's report. A report from the Sunshine Committee was given and thank you notes were read by Mrs. Margaret Cookson. Mrs. John Russell, reported that the Church Pictorial Plates were selling very well. A very gratifying report on the booth at the Steam Show was given by Peter Schell, of the Seafarers Club. Plans for the serving of dinners at the Milton Fall Fair were discussed. The Guild will occupy the space under the grandstand.

Plans were also discussed for their booth at the Georgetown Fair. It was announced that a Rummage Sale would be held in the early part of November. The meeting closed with prayer followed by a delicious lunch served by the hostess assisted by Mrs. John Russell. The next meeting will be at the home of Mrs. Pat Plippance on Tuesday, Oct. 13.

## Shows Flowering Arranging To United Church Women

Floral arrangements by Mrs. E. Harris highlighted a St. John's U.C.W. meeting in the Church hall Wednesday, September 16. It was the first meeting of the fall season.

In an informative demonstration Mrs. Harris showed various ways of arranging flowers and leaves to produce striking effects. Types of containers had a bearing on the special attractiveness of each arrangement. Mrs. Harris illustrated her talk with coloured slides. Corsages were given to two members celebrating birthdays this month. Mrs. Harris was thanked by Mrs. A. Reader.

Mrs. H. Hogan, the vice-president, opened the meeting with prayer after which Unit G conducted a devotional period. The devotional opened with the singing of O Lord of Heaven and the scripture reading was from St. John's gospel. A brief message was read by Mrs. M. Halley before this portion of the meeting closed with the singing of the hymn O Lord of Life. Among the announcements was the date for the next general meeting, Oct. 14, when other district churches will be invited to hear a guest speaker.

### Kennedy Parents Meet Teachers, Each Other

A large turnout at the first meeting of the George Kennedy Home and School Association last Wednesday augured well for the rest of the season. Seventy-five parents jammed the room to be welcomed by this year's president, Mrs. Mike Haines. The meeting was informal, with the purpose of introducing the teachers, particularly the new ones, to the parents. Following the introductions, came the social hour where the members mingled and became acquainted.

The executive for the 1964-65 season is — President, Mrs. Mike Haines; Vice-president, Mrs. S. Martin; 2nd Vice-president, Mr. Boyd Lance; Rec. Secretary, Mrs. R. McNelly; Treasurer, Mrs. M. Allen; Social convener, Mrs. J. Ewing; Publicity chairman, Mrs. Dave Mackenzie; Membership chairman, Mrs. M. Ferguson; and Chairman of Grade Mothers, Mrs. A. Garrett.

### Jiggs Would Be Happy

Not All the Eager Eaters In Dog Food Commercials

So chips and cokes are the fare of the high-schooler, according to the so-called experts — however, Mrs. T. Hutchison, supervisor of the Georgetown High School cafeteria, says it isn't so. The most popular meal served is shepherd's pie, or meat pie, complete with vegetables. Both the boys and girls favour the same foods, with the above mentioned being the favourite main course and apple or cherry pie being the favourite dessert. Arriving at nine in the morning the five ladies, Mrs. T. Hutchison, Mrs. Flo Baker, Mrs. Charlotte Urquhart, Mrs. R. McCausland and Mrs. N. Harvey, have lunch ready for four hundred by quarter to twelve. Mrs. Hutchison modestly points out that only about seventy have complete dinners. However, in that short time the women have prepared two dinners (there is always a choice two soups, salad plates, and vegetables). Jiggs would be happy here — corned beef and cabbage is a favourite. There is one consolation, despite the large number of mouths to feed — there are no dishes to wash. There is a large dishwasher. Another innovation which might make an ex-soldier green with envy is the automatic potato peeler. Everything runs smoothly and quietly, according to Mrs. Hutchison, except when a student drops a tray. Then he or she is tendered a wild round of applause and cheering, which undoubtedly adds a little spice to the favoured shepherd's pie.

talk on the New Curriculum. Plans are also underway for a buffet supper September 25 when everyone is invited to attend.

A letter from Mrs. Lee King, a past president now living in Waterdown, expressed her thanks for a life membership pin she received, at the June meeting with special thanks to the women who served with her on the executive during her term of office.

GLEN WILLIAMS

### Fruit, Vegetables Harvest Decoration

It was Harvest Home Festival in the United Church Sunday morning and the church was decorated with a profusion of fruit, vegetables and flowers. Huge pumpkins and tall stalks of corn were placed in the entrance while the sanctuary was a riot of color from the first red maple leaves to the crimson gladioli. On the centre of the communion table was placed bread and on either side small baskets overflowing with grain. The complete service was based on thankfulness from the opening hymn "Come, ye thankful people, come," to the two choir selections and the sermon. The bouquets of flowers were taken to the sick folk of the congregation after the service.

A large crowd attended the community auction sale conducted by Alf Spence on Friday evening. Many and varied were the household articles which were auctioned by Alf — his first attempt in full charge of proceedings — and we might add, an excellent job. This was held in the garage behind the snack bar and will be a monthly event. Mr. and Mrs. Bill Korack were clerks. Anyone having anything they wish to sell, should get in contact with Alf for the October sale.

We extend congratulations and best wishes to Jennette Davies and Gordon Hancock who are to be married Friday evening in St. Alban's with the reception in the parish hall.

The Ladies' Guild of St. Alban's met last Wednesday evening in the Parish Hall. Rev. R. Stubble opened the meeting and the ladies carried on with business which was comprised of a number of projects which are underway. The ladies have finished quilting three quilts. Plans were made for the catering to a wedding soon. The painting of the parish hall is to be undertaken shortly. Mrs. T. Haines, the president, closed the meeting. Allan Wheeler played in the Dornier golf tournament in St. Anicet, Quebec, on Sept. 12th. He won a leather wallet.

Is it a big car?  
Is it a small car?  
Is it a compact?

Yes.

It's a Volkswagen 1500. It's a big car because it can carry seven children, a mother and eight smiles. Or it can hold five grown-ups sitting down. It's a small car because it's three feet shorter than most station wagons. And it's a compact because we don't waste a single inch of space. The engine is hidden away deep down in the back. So you have a 5 1/2 foot flat loading area. And up under the front hood there's a trunk. Just like in Volkswagen's famous beetle-shaped sedan. And our VW 1500 has all the other advantages of the more familiar looking Volkswagen. It gets better footing in mud and snow because the engine weight is over the drive wheels. There's no radiator to freeze or boil. And it doesn't use much gas. The VW 1500 usually gets about 35 miles on a gallon. That goes a long way with seven children and a mother.
