COUNT DRACULA NEVER HAD IT SO GOOD

TELEVISION PREMIERS of weirdo shows like The Munsters and The Addams Family underscore the tremendous popularity being enjoyed lately by such unlikely candidates as Frankenstein's monster, Count Dracula, the Werewolf and company. In the model building realm these end their endearing buddies have ousted sirplines as the best sellers, and retailers have helped the revolution along with monster building contests. As left is one of the local winners, Joe Lagrave, and frightening friends. Below among his handiwork is Gary Billington. Collectors assemble! The creatures and paint them with model airplane dope. Learned Trade With The Herald Gus Dobbie Marks His "Golden"

September, 1964, marks an unique anniversary for one of Canada's weekly-known weekly newspapers — A. E. "Gus" Dobbie, editor of the Smiths Falls Record-News for the past 30 years. In September he observes his Golden Jubilee as a successful newspaperman, editor and publisher.

Still an active and progressive newspaperman, Gus Dobbie continues to turn out thoughtful, provoking editorials designed to improve his community and keeps a watchful eye on all municipal affairs.

... He can still be found every publishing day up to his elbows in ink as he assists his compositors in page make-up. During holiday times, he prides himself on the fact that he can make up a smart looking page as fast as any skilled tradesman — with no mistakes.

... Gus Dobbie served his apprenticeship on the Georgetown (Ont.) Herald when he learned the printer's devil and was later labeled with the "Curry Sound (Ont.) Canadian" and then for six years with the Petrolia (Ont.) Advertiser-Topic.

At this period of his career, besides studying journalism at the University of Toronto, he decided to stretch his wings and purchased the Stirling

(Ont.) News Argus. He came to The Record-News in April of 1934 to run the paper founded by Harry Sutton who had died the previous September.

Never a man to be on the outside looking in, Gus Dobbie has served on many municipal boards and was one of the spark plugs behind the formation of Little Theatre. He takes an active interest in sports and seldom misses home and away games of the local hockey team. He is politically conservative but will not let his personal feelings extend into the columns of his paper.

Many people, on first meeting Gus Dobbie, believe he has a crusty exterior. This may be so, but it is only a pretense. He has little patience

with incompetence but untold understanding for the problems of others. As a good newspaperman, he is always ready to listen, advise and guide. If he makes a mistake, he admits it publicly. When he is right, he refuses to bask in any reflected glory, believing that the responsibility of a weekly newspaper is to keep a watchful eye on the welfare of the community as a whole.

His philosophy: Never compare a weekly with a daily. Never make a weekly LOOK like a daily. The weekly has a most vital role to play in Canadian journalism, as does the daily. Its duty is to inform the citizens of the community; tell of its triumphs and trials and above all, build for a better future.

County Council "By-Law Lacking" Says Whiting: "It's Okay" Says Reeve Elliott

A spirited attack was made on the proposed Personnel Policies and Procedures by-law at Halton County Council last week, in a fiery speech by Oakville's Deputy Reeve Lester Whiting.

He enumerated twelve omissions from the by-law, no mention of hours of work, no mention of retirement, no mention of discipline, no mention of sick pay, nothing about vacations, nothing about car allowances, nothing about sick leave, nothing about employee training, nothing about pay if called for jury duty, no stand on wage garnishes. He then moved the by-law be referred back to the by-law committee for further study. He concluded by saying, "It looks like it was written for members of council, rather than the employees."

Speaking to the defence of the by-law, Georgetown's Reeve J. Elliott stated, "It is all for the employees, with this by-law he knows his rights, for example it says without fear of discrimination."

Suggests The Use of County Prisoners For Weed Control

The possibility that inmates of local jails be recruited to keep the weeds under control on the old Coulson Property on the 7th line near Hensby, was decided to the County for a re-forestation area, was brought up at Halton County Council last week.

Reeve W. Coulter of Nantawau pointed out that it could only be done by hand since the trees were still very small. He went on to say that last year the Deputy Minister of Reform thought it might be possible to use inmates of local jails.

Warden Gallagher concluded by saying it could do no harm to find out if it were possible.
