

# LET'S PLAY BRIDGE

By BILL COATES

I imagine that all of you, at one time or another, have ended up in what appeared to be a hopeless contract. The world's best bridge players occasionally end up in the wrong contract. The difference between the experts and you and I is that they don't do it as often.

One thing to remember when you get into a bad contract is — don't despair. You must still make a plan of play and do your best to minimize a bad situation. When you make your plan assume that the cards are as favourably distributed as possible. Also remember that the opponents don't know what you have.

Here is a hand that occurred last week. South ended up in a bad contract but still managed to come up with a good score.

Dealer, South		North South	
Vulnerable.			
North			
K-8			
H-7 6 2			
D-A 10 5 3			
C-J 8 5 3			
West			
S-K 7	S-J 10 5 4 3		
H-A K 8 4 3	H-10 9 5		
D-10 8	D-K 8 4 2		
C-10 7 6 3	C-Q		
South			
S-A Q 8 6 3			
H-Q J 7			
D-Q 8			
C-A K 8 4			

The bidding:  
 1C Pass 1D Pass  
 2S Pass 3C Pass  
 3NT All pass

not have the additional values to go on. However, in spite of what many people think, the time to gamble a little is when you are vulnerable and the opponents are not. Hence South gambles on three no trumps.

West opens with the heart four and dummy goes down. South must be disappointed. North's bidding has been correct but his hand is really of little use to South in a no trump contract.

First good news comes when East plays the heart nine. South wins with the queen and considers his plan. Clubs must break favorably. Perhaps two tricks in diamonds and two in spades—but don't let the opponents in.

Well here goes—Clubs ace and East drops the queen. Three more club tricks follow including a finesse of West's 10 of clubs and he lets go of the heart 10, a small diamond and a small spade. Now declarer leads a low diamond from dummy. East ducks so far as he can tell, if he plays the king he could set up all of dummy's diamonds. Now a diamond back to the ace. At this point declarer is home free. He knows that West has no more diamonds or clubs. A heart is led from dummy. West makes four heart tricks but must finally lead spades to give South nine tricks and his contract.

So, when you get in a poor contract, don't despair, play confidently and, who knows, you may make your contract.

MONDAY'S BRIDGE  
 1st pair - Mr. and Mrs. Reg Williams; 2nd pair - Earl Kendall and Mike Lorusso; 3rd pair bids three clubs, South does Mr. and Mrs. J. Coats.

## Four from Georgetown On County NDP Executive

Four Georgetown people will help guide the activities of the New Democratic Party in Halton county in the upcoming year. Named to offices in the Halton wing of the party at elections held in Milton Tuesday, November 3rd were William Rannachan, vice pres.; Member at Large, A. Tachel; Party Organizer W. Brown; and Auditor Bert Haddock.

The other officers are President William Gillies, Oakville; Secretary M. Kerrigan, Milton; Treasurer Mrs. G. Barlow, Burlington; Members at Large, D. Neuligt, Oakville; S. McKay, Oakville; C. Hayes, Milton and Delegate and Alternate to the Provincial Council, M. Kerrigan, Milton, and John Barr, Acton. E. Drinkwater of Acton is also an auditor.

The speaker for the evening was Mr. Lynn Williams, an Area Supervisor for the United Steelworkers in the Niagara District. Mr. Williams, a graduate of McMaster University spoke to the Halton members in terms of the problems faced in Canada in the immediate future.

He said that the Democratic Socialists had been responsible for the fact that Canadians now accepted the need for measures like medicare and economic planning in today's society. Mr. Williams pointed out that every political party in the last election had included some mention of economic planning in its program, an idea that a few years ago had been rejected by all except the New Democrats.

Automation, Mr. Williams said, was one of the major problems of the immediate future. Mr. Williams closed his address by mentioning that most European countries know about and practise the kind of economic planning which virtually eliminates unemployment in their societies. The goals of their governments were to bring to the ordinary man the fullest measure of freedom and opportunity for success.

Mrs. O. Hunter, Curator of the Tweedsmuir History Book, requested pictures of historical interest of the village or surrounding district. If you have a picture that would hold to compile the history of Norval it would be greatly appreciated.

A discussion was held on restoring the old cemetery on the town line opposite Cascadens where all the tomb stones are practically buried in the ground. This was the first Norval cemetery. Lunch served by the hostess assisted by Mrs. Keith Webb and Mr. H. Smalle.

# WHO PAYS

if you are responsible for an automobile accident after your insurance policy has lapsed

## You do!

When you allow your insurance policy to lapse you immediately become an uninsured motor vehicle owner. Before you drive, you must either pay the \$20 uninsured motor vehicle fee at a Department of Transport licence agency office or renew your insurance, or you will be liable to a fine of up to \$500.

The \$20 fee gives you NO protection whatever. If there is a claim against you as an uninsured motor vehicle owner for which you are liable, it will be paid by the Motor Vehicle Accident Claims Fund, but you must repay the fund. You will not be allowed to own or operate a motor vehicle until you make arrangements to do so. Judgments up to \$25,000 are not uncommon. A debt of this size could seriously hamper your family's future. Protect your future. The wisest course is to buy automobile liability insurance and keep it in force. Always carry your insurance card in your automobile.
