MAT TEAM — NEW SOURCE OF GLORY FOR RED AND BLUE

GEORGETOWN HIGH SCHOOL has found a new source of glory in a wrestling team which is making a mark for itself in inter-school matches, even though this is the first year GDHS has dabbled in the sport with any degree of seriousness. In the front row are: Bill Hall, Terry Campbell, George Ferguson, Ray Burrows, Brian Youmans. Middle row: David Booth, Bob Smith, John Royce, J. Clark and John Campbell. Back row: Doug Hills, Jim Mackenzie, Bob McKay, Mike Toet and Tim Bragg-Smith.

HARLEY TO HALTON

WEEKLY OBSERVATIONS BY DR. HARRY HARLEY, M.P. FOR HALTON

ON MONDAY the new Canadian flag was raised above the Peace Tower of the Parliament Buildings. It was a simple, dignified programme and started inside the Parliament Buildings by the singing of "O Canada" in English and French by a mixed choir of sixteen boys and girls from Ottawa schools. The crowd assembled outside the Peace Tower on a cold but clear day numbered more than 10,000. They were quiet and respectful as the Mad Ensign was lowered and

as the new flag was raised the crowd broke into spontaneous cheering. It was a moving ceremony, done in good taste and a sight to long be remembered. ON TUESDAY, as expected, the House of Commons started its day with talk of enquire, statements on scandal and the House of Commons seemed to be in for a nasty and noisy beginning. The Members themselves seemed to be out for trouble. However, this gradually settled down and by the hour of dinner recess Parliament got down to work on the

Labour Standards Code Act in the evening and good progress was made, and this continued into the following day. The Minister of Labour has proposed amendments to the Act that should satisfy all those industries who are disturbed by the hours of work proposed. All industries or groups who feel they will be adversely affected by the Bill, may apply to the Minister of Labour for an 18 month deferment. If this temporary deferment will not help, a public enquiry will be held, and all interested parties may make representations in these matters.

ON WEDNESDAY the Prime Minister announced that the Government will reduce the age for starting the Old Age Pension from 70 years to 65 years in keeping with the recommendations of the Canada Pension Committee. There will be no means test. On 1st January 1966, the age of starting Old Age Pension will be 60 years, in 1967 it will be 68 years and so on so that by the 1st January, 1970, everyone 65 years and older will receive the Old Age Pension in full (\$75. per month).

This will greatly aid the people who would not have received any benefits under the Canada Pension Plan because of their age.

Driver, Passenger Have Minor Injuries

George Henry Cosens, 21 Young St., and Diane Cosens of the same address, suffered minor injuries when the car they were riding in slid into the back of a truck parked opposite Murray Motors on Guelph St.

Mr. Cosens, the driver, suffered bruises and abrasions to the top of his head. Diane Cosens received injuries to her knees, forehead and face.

The Cosens car was westbound on Guelph St. and had swerved to miss a car exiting from Queen St. when it skidded on the icy surface.

The parked truck, a GMC van, was operated by Carl Byron Edwards, Downsview.

Police place the property damage at \$50 to the car and \$100 to the truck. Earlier the same day police investigated a rear-end collision on Main St. N. involving cars driven by Ronald McCausland, R.R. 1, Limehouse, and Robert Gary Cooper, Glen Williams.

The 1958 Chev driven by McCausland collided with the rear of Cooper's 1950 Buick. Cpl. Ted Scott estimated damage here at \$125 to each vehicle.

ELECTRIC HEAT POPULAR

Electric home heating continues to gain in popularity. At the beginning of 1965, some 13,000 residential installations had been completed.

The area of the continental shelf adjoining the earth's land masses equals the area of Africa.

District Guides, Brownies Celebrate 'Thinking Day'

Girl Guides, Rangers and Brownies in Georgetown joined with thousands of Girl Guides and Girl Scouts around the world Monday, February 22 to celebrate 'Thinking Day' because the date marks the birthdays of the founder of Scouting and Guiding, the late Lord Baden-Powell and the World Chief Guide, Olive, Lady Baden-Powell.

'Thinking Day' pennies from Guides all over Canada are gathered together in the World Friendship Fund and from there go out around the world. This fund helps Canadian Guides too. As members of an international organization, we help the World Association of Girl Guides and Girl Scouts put Guiding within the reach of every girl who wants it wherever she may be.

'Thinking Day' is the occasion of special ceremonies celebrating the Guide ideal of international friendship. Girls the world over give 'Thinking Day' pennies which are used to promote Guiding throughout the world.

A part of the World Friendship Fund goes to each of the three World Centres, a Chalet in Switzerland, a Cabana in Mexico and Glava House in London. Canadian Guides visit these centres for adventures in international friendship.

The pennies collected by the companies and packs will help send trainers to establish Guide programmes in new or 'tender-foot' countries, send and to the Guide organizations in time of disaster and assist work in refugee camps.

Another part of the fund is used to help Canadian girls accept the many invitations to International Camps and Training Sessions which come to Canada from around the world each year.

Would Standardize Zoning In North Halton Towns

A proposal to compare and synchronize the zoning by-laws of the five municipalities in the North Halton area met with favor last week at the regular meeting of Milton Planning Board.

we can gain a lot from the Association," he summed up.

Reporting on progress of the new County Planning Association, board member G. C. Gowland said there was a proposal to link the Acton, Milton, Georgetown, Esqueping, and Nazagaways by-laws together with similar clauses and descriptions, to keep unity among the municipalities. He suggested that one general by-law could easily apply to the three towns with a second by-law for the two townships.

Later in the meeting the board approved a motion calling for 'synchronization' of the by-laws and agreed to let the planning board secretaries talk it over first. A copy of the motion was forwarded to town planner Derek Little of Municipal Planning Consultants, for information.

"Why should three towns hire three consultants and pay three times as much to get the same by-laws?" he wanted to know.

False Ambulance Call
An unidentified person who placed a false ambulance call last week is being sought by police for questioning.

Mr. Gowland suggested the month of the county could gain a lot of aid from the County Planning Association, as the southern towns have experienced staffs who are willing to pass on information to the northern, slower-to-develop areas. He said there were problems coming up in the north of the county that were handled two to three years ago. "I think

The ambulance dispatcher, Mrs. John Oliver, said the caller didn't give her name but the voice sounded like that of a young woman. She asked that an ambulance be rushed to a Charles St. address but residents at the given address told Georgetown Volunteer Ambulance Service men when they arrived that no one there had placed the call and no ambulance was required.

William Herschel, famous 18th century astronomer, was a professional musician.

Says Children's Aid Valuable County Asset

Appearing before Halton County Council last week seeking the annual grant, Douglas Latimer, Georgetown, President of the Halton County Children's Aid, told Council that their investment in the \$36,000 grant paid tremendous dividends socially and economically in the community.

Mr. Latimer was presenting the annual budget of the Society with expenditures estimated at \$188,000, of which \$132,000 is spent on Child Care Services. This amount would cover forty-four thousand days care for children during the year, it was estimated.

In a comparison of costs to the County in the last four years, the Children's Aid President pointed out that since 1961, the County cost has
