## Merchants Swat Hornets Grab Jr. C Series Lead

The club that nudged Georgetown Junior Beavers from the O.H.A. Central Ontario Junior C playoff picture, the Milton Merchants, has captured the first game of the league semi-final with Orangeville Hornets.

Merchants came through with 3 goals in the third period to down Lou Fontinato's Hornets 3-1 in Milton Friday night. The series is a best of five affair.

Jim Keane, Dave Prentice and Brian Bond fired the Milton goals. Bob Workman netted the lone Hornets marker.

The game was a goal tending duel between Frank Marshorri of Milton and Jim Powers of Orangeville.

The clubs battled through the first two periods without scoring a goal.

Powers was particularly outstanding in the first period as the Merchants swarmed all around the goal but couldn't score. The Orangeville netminder blocked out 17 shots in the opening period and 17 more in the middle frame.

Marshorri wasn't as busy at the other end of the rink but finished up with 28 saves, several of them on close in drives.

The game may have proved even more costly to Lou Fontinato's Hornets.

## Name Jim McIntyre Head Georgetown Golf Men

Some sixty Georgetown Golf and Country Club Men's Section members, specifically concerned about the possibility of their club's future, met at the R.R. 4 Georgetown club Sunday to elect a 1965 executive and start the golf ball rolling.

The section's new president is Jim McIntyre, elected to succeed William Lee who will continue on the executive as past president.

Gib Hay is vice-president, Bob Shorter is secretary, and John Gibson is treasurer.

## Rugger Club Ignores Snow Runs First Drill Anyway

Either the Georgetown rugger squad have less water in their veins or they practice through hypnosis. Deep snow nipped at their ankles and bitter cold stiffened their faces Sunday as they ran through a drill in the park as scheduled, the first of the pre-season conditioning sessions.

A good percentage of the team turned out to participate in the brisk workout under the eye of their captain, Trev Sampson. The only pleasant aspect of the initial drill as far as club officials were concerned was the number of new prospects who showed up.

The team will practice again this Sunday at noon in the same place and if poor conditions persist they'll spend a big part of the period in road work.

Much as they would have liked to turn on their heels and go home the rugger Beavers just can't afford to lose a chance to train. The first exhibition game is less than two weeks away and fitness is a very big factor with the powers that be.

The team's fitness is of prime importance for three

**WHY**

**DOES SHUR-GAIN FERTILIZER SPREAD BETTER?**

At a quick glance SHUR-GAIN Selected-Granulated Fertilizer may look very much like most other kinds of granular fertilizers—but there is an important difference. Most ordinary fertilizers and practically all custom blended ones consist of a dry mixture of fertilizer materials either in powder or granular form.

As a result the different ingredients vary in size and weight. You can compare it to a handful of ping-pong balls, mixed with marbles. If you throw out a handful of these, the heavier marbles will travel farther than the ping-pong balls—and that is exactly what happens with ordinary fertilizers.

When you spread your fertilizer, with a drill or even more important, with any broadcast-type spreader you can be sure that every particle (from the smallest to the largest) of free-running SHUR-GAIN Selected-Granulated Fertilizer is nutritionally balanced no matter where it lies—assuring you of complete and even intake of all the plant food by your crops. There are no excesses in one area and starvation in another with SHUR-GAIN.

Another good reason why you can be confident of top returns from SHUR-GAIN—the finest fertilizer for your good earth!
